Know Your State
INTERACTIVE TOOL

Help patients learn about medication access and affordability options one state at a time

This interactive tool provides information on affordability options for patients. Topics covered include:

- Medicaid Expansion
- State Pharmaceutical Assistance Programs (SPAPs)
- Low-Income Subsidy (LIS) Eligibility Information
- State Health Insurance Assistance Programs (SHIPs)
- Standard Prior Authorization (PA) Forms
- National Foundations & Other Nonprofit Resources
- Oral Parity Laws
- Advocacy Connector
- Biosimilar Legislation
- Continuity of Care
- State Legislature Resources

To “zoom in” or “zoom out” on any page in this document, hold down the command key (Mac) or control key (Windows) and then also hold down the + or - key.
To fit this document to your screen, select the command key or control key with the number zero key also selected.
Please note, these zoom shortcuts are only applicable when viewing this document on desktop or laptop computers.
For general medication access and affordability options resources, please visit the National Foundations or the Advocacy Connector pages within this document.

CLICK ON A STATE IN THIS MAP TO LEARN MORE ABOUT STATE-SPECIFIC AFFORDABILITY OPTIONS*

* As of July 16, 2018
Alabama

LOW-INCOME SUBSIDY (LIS) PROGRAMS

- Medicare patients who have limited income and resources may qualify for “Extra Help” to pay for prescription drugs. The LIS programs in Alabama include Aetna Medicare Rx Saver, Express Scripts Medicare - Value, Humana Preferred Rx Plan, SilverScript Choice, Symphonix Value Rx, and WellCare Classic.

STANDARD PRIOR AUTHORIZATION (PA) FORM

- As of June 2018, a standard PA Form has not been fully instituted in the state of Alabama.

TREATMENT ACCESS: GET ON IT & STAY ON IT

CONTINUITY OF CARE/NON-MEDICAL SWITCHING:
- Alabama does not appear to have any laws or regulations specifically applicable to continuity of care/non-medical switching of prescription drugs.

STEP THERAPY:
- Alabama does not appear to have any laws or regulations specifically applicable to step therapy/fail-first requirements. However, the state Medicaid regulations provide for coverage of up to 10 brand name prescription drugs through overrides for specific drugs in cases where the prescribing physician documents medical necessity.

ORAL PARITY LAW

- As of June 2018, the state of Alabama has no legislation regarding orally administered chemotherapy treatment.

MEDICAID EXPANSION

- As of June 2018, the state of Alabama has not expanded Medicaid.

BIOSIMILAR LEGISLATION

- As of June 20, 2017, legislation is pending in Alabama that would allow pharmacists to substitute a biological product for the prescribed reference biologic only if it is deemed to be an “interchangeable” biosimilar by the U.S. Food and Drug Administration (FDA) and meets other state law requirements. The pharmacist would be required to notify the prescribing practitioner and the patient about the substitution within 5 days of substitution and meet certain reporting requirements. A dispensing pharmacist may not substitute a biosimilar product for a biologic if the provider notes “dispense as written” on the prescription. Currently, there are no interchangeable biological products.

STATE PHARMACEUTICAL ASSISTANCE PROGRAMS (SPAPs)

Alabama AIDS Drug Assistance Program
Phone: 1-866-574-9964

STATE HEALTH INSURANCE ASSISTANCE PROGRAMS (SHIPs)

PROGRAM NAME:
State Health Insurance Assistance Program (SHIP)
Phone: 1-800-243-5463

ABOUT:
- Alabama has SHIP coordinators and insurance counselors. SHIP counselors are committed volunteers who are knowledgeable about issues affecting Medicare beneficiaries.
- SHIP Counselors provide information to assist in making informed choices regarding insurance benefits. The counselors are not affiliated with any insurance companies and do not attempt to sell insurance. All counseling records are strictly confidential.
- SHIP is a partnership with the Centers for Medicare & Medicaid Services, the Alabama Department of Senior Services, and the Area Agencies on Aging.

Eligible veterans may have options through the Veterans Choice Program. Click here for eligibility details: https://www.va.gov/OPA/CHOICEACT/
Alaska

LOW-INCOME SUBSIDY (LIS) PROGRAMS

• Medicare patients who have limited income and resources may qualify for “Extra Help” to pay for prescription drugs. The LIS programs in Alaska include AARP® MedicareRx Saver Plus, Astrea Medicare Rx Saver, Cigna-HealthSpring Rx Secure, EnvisionRxPlus, Humana Preferred Rx Plan, Symphonix Value Rx, and WellCare Classic.¹

STANDARD PRIOR AUTHORIZATION (PA) FORM

• As of June 2018, a standard PA Form has not been fully instituted in the state of Alaska.²

TREATMENT ACCESS: GET ON IT & STAY ON IT

CONTINUITY OF CARE/NON-MEDICAL SWITCHING²:
• Alaska does not appear to have any continuity of care provisions or non-medical switching limitations that apply specifically to prescription drug coverage.

STEP THERAPY²:
• Alaska does not appear to have any laws or regulations specifically applicable to step therapy/fail-first requirements. Alaska Medicaid does have several provisions related to prior authorization with limited exceptions.

ORAL PARITY LAW

• Alaska enacted legislation, effective January 1, 2016, that directs health benefit plans that provide coverage for cancer chemotherapy treatment to extend coverage for orally administered anti-cancer medication at a cost equal to the cost of intravenously administered or injected anti-cancer medications.¹

BIOSIMILAR LEGISLATION

• As of June 20, 2017, legislation is pending in Alaska that would allow pharmacists to substitute a biological product for the prescribed reference biologic only if it is deemed to be an “interchangeable” biologic by the U.S. Food and Drug Administration (FDA) and meets other state law requirements. The pharmacist would be required to notify the prescribing practitioner and the patient about the substitution within 3 days of substitution and meet certain reporting requirements. A pharmacist may not substitute a biosimilar product for a biologic if the provider notes “dispense only as written” on the prescription. Currently, there are no interchangeable biological products.²

MEDICAID EXPANSION

• Because Alaska has expanded Medicaid, free or low-cost health coverage is available to people with incomes below a certain level regardless of disability, family status, financial resources, and other factors that are usually taken into account in Medicaid eligibility decisions.⁴ For more details on Medicaid expansion in Alaska, click here.

STATE PHARMACEUTICAL ASSISTANCE PROGRAMS (SPAPs)

Alaskan AIDS Assistance Association⁴
Phone: 1-800-478-AIDS

STATE HEALTH INSURANCE ASSISTANCE PROGRAMS (SHIPs)

PROGRAM NAME:
State Health Insurance Assistance Programs (SHIP) & Senior Medicare Patrol (SMP)
Phone: 1-800-478-6065

ABOUT:
• Alaskans are helping Alaskans get more out of their Medicare via two programs: State Health Insurance Assistance Programs (SHIP) and Senior Medicare Patrol (SMP).
• SHIP provides one-on-one personalized counseling, education, and outreach to Medicare beneficiaries and their families, allowing them to better understand and utilize their Medicare benefits.
• A large network of counselors across the state helps beneficiaries understand and navigate Medicare and other health insurance programs and plans.⁴

© Johnson & Johnson Health Care Systems Inc. August 2018 cp-61006v1
• Medicare patients who have limited income and resources may qualify for “Extra Help” to pay for prescription drugs. The LIS programs in Arizona include Aetna Medicare Rx Saver, Blue MedicareRx Value, Cigna-HealthSpringRx Secure, EnvisionRxPlus, Express Scripts Medicare - Value, Humana Preferred Rx Plan, Magellan Rx Medicare Basic, SilverScript Choice, Symphonix Value Rx, and WellCare Classic.1

1. Data on file. Johnson & Johnson Health Care Systems Inc. 2. On January 1, 2016, Arizona adopted an oral parity law to direct payers that provide coverage for cancer chemotherapy treatment to (1) extend coverage for orally administered anti-cancer medication at a cost equal to the cost of intravenously administered or injected anti-cancer medications, and (2) to maintain established cost-sharing rates and benefit classification for intravenous and/or injectable treatments (ie, rates cannot be increased in order to comply with this legislation).2

• Because Arizona has expanded Medicaid, free or low-cost health coverage is available to people with incomes below a certain level regardless of disability, family status, financial resources, and other factors that are usually taken into account in Medicaid eligibility decisions.4 For more details on Medicaid expansion in Arizona, click here.

• In Arizona, biosimilar substitution laws that went into effect on December 31, 2016, allow pharmacists to substitute a biological product for the prescribed reference biologic only if it is deemed to be an “interchangeable” biosimilar by the U.S. Food and Drug Administration (FDA) and meets other state law requirements. Currently, there are no interchangeable biological products.2

Arkansas

LOW-INCOME SUBSIDY (LIS) PROGRAMS

- Medicare patients who have limited income and resources may qualify for “Extra Help” to pay for prescription drugs. The LIS programs in Arkansas include **Aetna Medicare Rx Saver, Humana Preferred Rx Plan, SilverScript Choice**, and **WellCare Classic.**

STANDARD PRIOR AUTHORIZATION (PA) FORM

- As of June 2018, a standard PA Form has not been fully instituted in the state of Arkansas.

TREATMENT ACCESS: GET IT & STAY ON IT

CONTINUITY OF CARE/NON-MEDICAL SWITCHING:
- Arkansas prohibits insurance policies from mandating any provider to change an enrollee’s “maintenance drug” unless the prescriber and enrollee agree to such a change. A maintenance drug is defined as a drug prescribed by a practitioner who is licensed to prescribe drugs and used to treat a medical condition for a period greater than 30 days.

STEP THERAPY:
- An insurer that uses step therapy cannot require the healthcare provider to use step therapy more than once for the same condition for a period greater than 30 days.

ORAL PARITY LAW

- Effective January 1, 2018, payers that provide coverage for orally administered cancer chemotherapy treatments must cover them at parity with chemotherapy treatments administered intravenously or by injection.

BIOSIMILAR LEGISLATION

- As of June 20, 2017, legislation is pending in Arkansas that would allow pharmacists to substitute a biological product for the prescribed reference biologic only if it is deemed to be an “interchangeable” biosimilar by the U.S. Food and Drug Administration (FDA) and meets other state law requirements. The pharmacist would be required to notify the prescribing practitioner and the patient about the substitution within 5 days of substitution and meet certain reporting requirements. A pharmacist may not substitute a biosimilar product for a biologic if the provider indicates that no substitution should be made. Currently, there are no interchangeable biological products.

MEDICAID EXPANSION

- Because Arkansas has expanded Medicaid, free or low-cost health coverage is available to people with incomes below a certain level regardless of disability, family status, financial resources, and other factors that are usually taken into account in Medicaid eligibility decisions. However, Arkansas has obtained federal approval to require that non-exempt individuals work a certain number of hours per week to be eligible for Medicaid benefits, effective June 2018. For more details on Medicaid expansion in Arkansas, click here.

STATE HEALTH INSURANCE ASSISTANCE PROGRAMS (SHIPs)

- **Senior Health Insurance Information Program (SHIIP)**
  - Phone: 1-800-224-6330, 1-501-371-2782
  - About:
    - SHIIP is a health insurance information program that provides free one-on-one counseling, education, and information to individuals with Medicare of all ages.
    - Answers questions regarding Medicare health coverage, Medicare supplemental insurance, long-term care insurance, Medicare Advantage plans, general Medicaid, senior referral services, Medicare prescription drug coverage, and retiree health plan coverage.

STATE PHARMACEUTICAL ASSISTANCE PROGRAMS (SPAPs)

- **Arkansas AIDS Drug Assistance Program (ADAP)**
  - Phone: 1-501-661-2408

ADDITIONAL PROGRAMS/RESOURCES

Eligible veterans may have options through the Veterans Choice Program. Click here for eligibility details: https://www.va.gov/OPA/CHOICEACT/
LOW-INCOME SUBSIDY (LIS) PROGRAMS

- Medicare patients who have limited income and resources may qualify for “Extra Help” to pay for prescription drugs. The LIS programs in California include Aetna Medicare Rx Saver, Humana Preferred Rx Plan, SilverScript Choice, Symphonix Value Rx, and WellCare Classic.1

STANDARD PRIOR AUTHORIZATION (PA) FORM

- Prescribers can submit a standard drug PA request form for prescription drug benefits. This form was implemented in California to help simplify and streamline the PA process for prescription drugs. The form is available at http://wpso.dmhc.ca.gov/regulations/docs/reqs/29/1395159562398.pdf.2

TREATMENT ACCESS: GET ON IT & STAY ON IT

CONTINUITY OF CARE/NON-MEDICAL SWITCHING:
- California law protects against non-medical switching limitations by prohibiting health plans from “limiting or excluding” coverage for a previously prescribed drug as long as the provider continues to prescribe it, and the drug is considered “safe and effective” for the enrollee’s medical condition. However, this provision does not preclude a plan from “charging the enrollee a co-payment or deductible,” and it remains unclear whether this means that the plan would be obligated to continue covering the excluded drug at the same patient cost sharing level.

STEP THERAPY:
- California provides that a request for an exception to a step therapy process must use the state’s uniform prior authorization forms, plans must establish an expeditious process to handle such requests, and submit this plan, including the criteria for making step therapy override requests, to the state.

ORAL PARITY LAW

- On January 1, 2015, an oral parity law went into effect that sets a “cap” of $200 per prescription for patients receiving oral parity chemotherapy treatments. This law allows payers to increase the cap annually based on the Consumer Price Index (CPI), and expires in 2019.3

MEDICAID EXPANSION

- Because California has expanded Medicaid, free or low-cost health coverage is available to people with incomes below a certain level regardless of disability, family status, financial resources, and other factors that are usually taken into account in Medicaid eligibility decisions.4 For more details on Medicaid Expansion in California, click here.

BIOSIMILAR LEGISLATION

- In California, biosimilar substitution laws allow pharmacists to substitute a biological product for the prescribed reference biologic only if it is deemed to be an “interchangeable” biosimilar by the U.S. Food and Drug Administration (FDA) and meets other state law requirements. Currently, there are no interchangeable biological products.2

STATE HEALTH INSURANCE ASSISTANCE PROGRAM (SHIPs)

PROGRAM NAME:
California Department of Aging’s Health Insurance Counseling and Advocacy Program (HICAP)

Phone: 1-800-434-0222

ABOUT:
- HICAP provides personalized counseling, community education, and outreach events for Medicare beneficiaries.
- A primary local source for accurate and objective information and assistance with Medicare benefits, prescription drug plans, and health plans.5

STATE PHARMACEUTICAL ASSISTANCE PROGRAMS (SPAPs)

California AIDS Drug Assistance Program (ADAP)6

**LOW-INCOME SUBSIDY (LIS) PROGRAMS**
- Medicare patients who have limited income and resources may qualify for “Extra Help” to pay for prescription drugs. The LIS programs in Colorado include Aetna Medicare Rx Saver, EnvisionRxPlus, Humana Preferred Rx Plan, SilverScript Choice, Symphonix Value Rx, and WellCare Classic.

**STANDARD PRIOR AUTHORIZATION (PA) FORM**
- Prescribers can submit a standard drug PA request form for prescription drug benefits. This form was implemented in Colorado to help simplify and streamline the PA process for prescription drugs. The form is available here.

**TREATMENT ACCESS: GET ON IT & STAY ON IT**
- Colorado law does not appear to include any continuity of care provisions and/or limitations on non-medical switching for prescription drug coverage. A December 2015 Bulletin indicates that “it is the position of the Division of Insurance” that “replacement plan carriers” for managed care plans will ensure a “seamless transition of previously approved therapies,” including “biologic medical therapy.” It is unclear how plans have implemented the Division’s directive, which would only apply in the limited context of a patient transitioning between health plans.

**ORAL PARITY LAW**
- Colorado’s oral parity law applies to health policies issued or renewed on or after January 1, 2011, and requires payers that provide coverage for cancer treatment to extend coverage for orally administered anti-cancer medication at a cost no less favorable to intravenously administered or injected cancer medications. Additionally, plans may not increase the out-of-pocket cost of IV or injected cancer treatments to achieve compliance.

**MEDICAID EXPANSION**
- Because Colorado has expanded Medicaid, free or low-cost health coverage is available to people with incomes below a certain level regardless of disability, family status, financial resources, and other factors that are usually taken into account in Medicaid eligibility decisions. For more details on Medicaid expansion in Colorado, click here.

**BIOSIMILAR LEGISLATION**
- In Colorado, biosimilar substitution laws allow pharmacists to substitute a biological product for the prescribed reference biologic only if it is deemed to be an “interchangeable” biosimilar by the U.S. Food and Drug Administration (FDA) and meets other state law requirements. Currently, there are no interchangeable biological products.

**STATE HEALTH INSURANCE ASSISTANCE PROGRAMS (SHIPs)**
- The SHIP Program helps people enrolled in Medicare with questions about health insurance. Topics addressed include Medicare, Medicare supplemental insurance (Medigap), Medicare HMOs, Medicaid assistance for people on Medicare, and long-term care insurance. Counselors provide assistance regarding public education presentations about Medicare, related health insurance, and Medicare fraud. Consumers may contact their regional community program by calling toll-free.

**STATE PHARMACEUTICAL ASSISTANCE PROGRAMS (SPAPs)**
- Colorado Bridging the Gap
  - Phone: 1-303-692-2783, 1-303-692-2716

**ADDITIONAL PROGRAMS/RESOURCES**

  - National Foundations
  - Advocacy Connector
  - Congressional Members

Eligible veterans may have options through the Veterans Choice Program. Click here for eligibility details: https://www.va.gov/OPA/CHOICEACT/
**LOW-INCOME SUBSIDY (LIS) PROGRAMS**

- Medicare patients who have limited income and resources may qualify for “Extra Help” to pay for prescription drugs. The LIS programs in Connecticut include Aetna Medicare Rx Saver, EnvisionRxPlus, Express Scripts Medicare - Value, Humana Preferred Rx Plan, SilverScript Choice, Symphonix Value Rx, and WellCare Classic.1

**STANDARD PRIOR AUTHORIZATION (PA) FORM**

- As of June 2018, a standard PA Form has not been fully instituted in the state of Connecticut.2

**TREATMENT ACCESS: GET ON IT & STAY ON IT**

**CONTINUITY OF CARE/NON-MEDICAL Switching**: Connecticut does not appear to have any continuity of care provisions or limitations on non-medical switching for prescription drug coverage. Connecticut does have continuity of care provisions related to treatment by a provider during a course of treatment. Pending legislation would limit the ability of a health insurer to change prescription drug formularies during the term of certain group and individual health insurance policies.

**STEP THERAPY**: Connecticut limits the duration of the use of step therapy to 60 days. After 60 days, an insured’s treating healthcare provider may deem the step therapy regimen clinically ineffective for the insured, and the entity must authorize dispensation of and coverage for the drug prescribed by the insured’s treating healthcare provider, provided such drug is a covered drug under such policy or contract.

**ORAL PARITY LAW**

- On January 1, 2011, an oral parity law was enacted to direct payers to provide coverage for orally administered anti-cancer medications at a cost no less favorable than the cost of intravenously administered anti-cancer medications. This legislation also mandates payers to not increase cost-sharing for IV treatments or reclassify benefits.3

**MEDICAID EXPANSION**

- Because Connecticut has expanded Medicaid, free or low-cost health coverage is available to people with incomes below a certain level regardless of disability, family status, financial resources, and other factors that are usually taken into account in Medicaid eligibility decisions.4 For more details on Medicaid expansion in Connecticut, click here.

**BIOSIMILAR LEGISLATION**

- As of June 2018, biosimilar legislation in the state of Connecticut has not been instituted.2

**STATE HEALTH INSURANCE ASSISTANCE PROGRAMS (SHIPs)**

**PROGRAM NAME:** The CHOICES Program

**Phone:** 1-800-994-9422

**ABOUT:**
- Connecticut’s program for Health Insurance Assistance, Outreach, Information, Referral, Counseling and Eligibility Screening (CHOICES) is a cooperative program of the State of Connecticut Department of Social Services, the Area Agencies on Aging, and the Center for Medicare Advocacy, aimed at providing information to persons 60 years of age and older, as well as persons with disabilities.
- Calling CHOICES puts patients in touch with a counselor in their local area.5

LOW-INCOME SUBSIDY (LIS) PROGRAMS

- Medicare patients who have limited income and resources may qualify for “Extra Help” to pay for prescription drugs. The LIS programs in Delaware include AARP MedicareRx Saver Plus, Aetna Medicare Rx Saver, Cigna HealthSpring Rx Secure, EnvisionRxPlus, Express Scripts Medicare – Value, Humana Preferred Rx Plan, Magellan Rx Medicare Basic, SilverScript Choice, Symphonix Value Rx, and WellCare Classic.

STANDARD PRIOR AUTHORIZATION (PA) FORM

- As of January 1, 2018, insurers must accept and respond to pre-authorization requests under the pharmacy benefit through a secure electronic transmission using the National Council for Prescription Drug Program’s (NCPDP) SCRIPT standard ePA transactions.2

TREATMENT ACCESS: GET ON IT & STAY ON IT

CONTINUITY OF CARE/NON-MEDICAL SWITCHING:
- Delaware appears to have limited continuity of care protections that only apply to qualified health plans on the Delaware Exchange.

STEP THERAPY:
- Recently enacted legislation requires individual, group, and blanket health insurance policies to cover any medically appropriate drug approved by the FDA for the treatment of stage four metastatic cancer without requiring a patient to first prove that the patient failed to respond to a different drug or drugs. Delaware appears to provide some protection by virtue of its requirement that health plans provide coverage for any drug prescribed to treat patients with “chronic, disabling, or life-threatening illness.” It is unclear how health insurance carriers in the state have implemented this provision. Delaware law also provides for an exceptions process for drugs placed on a plan’s “specialty tier” that protects access to drugs that treat rheumatoid arthritis, among other conditions. Additionally, Individual, group, and blanket health insurance plans must provide an explanation of pre-authorization policies and that utilization review entities must complete their process or render an adverse determination and notify the covered person’s healthcare provider within 2 business days of obtaining a pre-authorization.

ORAL PARITY LAW

- On January 1, 2013, an oral parity law was enacted to direct payers to provide coverage for anti-cancer medications to extend coverage of oral anti-cancer treatments at a cost no less favorable than the cost of intravenous or injected anti-cancer medications. 4

MEDICAID EXPANSION

- Because Delaware has expanded Medicaid, free or low-cost health coverage is available to people with incomes below a certain level regardless of disability, family status, financial resources, and other factors that are usually taken into account in Medicaid eligibility decisions. 5 For more details on Medicaid expansion in Delaware, click here.

BIOSIMILAR LEGISLATION

- In Delaware, biosimilar substitution laws allow pharmacists to substitute a biological product for the prescribed reference biologic only if it is deemed to be an “interchangeable biosimilar” by the U.S. Food and Drug Administration (FDA) and meets other state law requirements. Currently, there are no interchangeable biological products. 6

STATE HEALTH INSURANCE ASSISTANCE PROGRAMS (SHIPs)

PROGRAM NAME:
- ELDERinfo
  Phone: 1-800-336-9500, 1-302-674-7364

ABOUT:
- Provides free health insurance counseling for people with Medicare. Patients can schedule counseling sessions with local, trained volunteers. Empowers people with Medicare to better understand options and make health insurance decisions.
- Counselors assist with logistics regarding Medicare, Medicaid, Medigap, long-term care insurance, and other types of health insurance. Counselors are volunteers with extensive training on health insurance. One-on-one counseling is objective and confidential. They are currently accepting volunteers.
- Funded in part by a grant from the Centers for Medicare & Medicaid Services. 7

LOW-INCOME SUBSIDY (LIS) PROGRAMS

- Medicare patients who have limited income and resources may qualify for “Extra Help” to pay for prescription drugs. The LIS programs in Florida include SilverScript Choice and WellCare Classic.¹

STANDARD PRIOR AUTHORIZATION (PA) FORM

- Prescribers can submit a standard drug PA request form for prescription drug benefits. This form was implemented in Florida to help simplify and streamline the PA process for prescription drugs. The form is available at https://www.flrules.org/Gateway/reference.asp?No=Ref-07606.²

TREATMENT ACCESS:

GET ON IT & STAY ON IT

CONTINUITY OF CARE/NON-MEDICAL SWITCHING²:
- Florida does not appear to have any continuity of care provisions or non-medical switching limitations that apply specifically to prescription drug coverage.

STEP THERAPY²:
- Florida does not appear to have any laws or regulations that apply specifically to step therapy/fail-first requirements.

ORAL PARITY LAW

- Florida’s oral parity law applies to health policies issued or renewed on or after July 1, 2014. This law requires payers that provide coverage for cancer treatment medications to cover orally administered cancer treatment at the same rate as IV or injected cancer treatment. If the IV or injected cancer treatment has a cost of less than $50 per month, then the oral cancer treatment can have an out-of-pocket cost of up to $50 per month. Additionally, plans may not increase the out-of-pocket cost of IV or injected cancer treatments to achieve compliance.³

MEDICAID EXPANSION

- As of June 2018, the state of Florida has not expanded Medicaid.⁴

BIOSIMILAR LEGISLATION

- In Florida, biosimilar substitution laws allow pharmacists to substitute a biological product for the prescribed reference biologic only if it is deemed to be an “interchangeable” biosimilar by the U.S. Food and Drug Administration (FDA) and meets other state law requirements. Currently, there are no interchangeable biological products.²

LOW-INCOME SUBSIDY (LIS) PROGRAMS LEARN MORE

Medicare patients who have limited income and resources may qualify for “Extra Help” to pay for prescription drugs. The LIS programs in Georgia include Aetna Medicare Rx Saver, EnvisionRxPlus, Humana Preferred Rx Plan, SilverScript Choice, and Symphonix Value Rx.¹

STANDARD PRIOR AUTHORIZATION (PA) FORM LEARN MORE

As of June 2018, a standard PA Form has not been fully instituted in the state of Georgia.²

TREATMENT ACCESS: GET ON IT & STAY ON IT LEARN MORE

CONTINUITY OF CARE/NON-MEDICAL SWITCHING²:
• Georgia does not appear to have any continuity of care provisions or non-medical switching limitations that apply specifically to prescription drug coverage, but does have protection related to the continued treatment by a physician.

STEP THERAPY²:
• Health benefit plans that cover treatment for stage four advanced metastatic cancer are prohibited from limiting or excluding coverage of an FDA approved drug by requiring a fail-first process. Proposed legislation would allow health benefits providers to engage in step therapy, but would require such providers to establish an override determination process.

ORAL PARITY LAW LEARN MORE

• Georgia’s oral parity law applies to health policies issued or renewed on or after January 1, 2015, and requires payers that provide coverage for cancer treatment to extend coverage for orally administered anti-cancer medication at a cost no less favorable to intravenously administered or injected cancer medications. This legislation also mandates payers to not increase cost-sharing for IV treatments or reclassify benefits. Payers are in compliance with the law if they charge no more than $200 per prescription for the orally administered anti-cancer treatment.³

MEDICAID EXPANSION LEARN MORE

• As of June 2018, the state of Georgia has not expanded Medicaid.⁴

BIOSIMILAR LEGISLATION LEARN MORE

• In Georgia, biosimilar substitution laws allow pharmacists to substitute a biological product for the prescribed reference biologic only if it is deemed to be an “interchangeable” biosimilar by the U.S. Food and Drug Administration (FDA) and meets other state law requirements. Currently, there are no interchangeable biological products.²

**LOW-INCOME SUBSIDY (LIS) PROGRAMS**

- Medicare patients who have limited income and resources may qualify for “Extra Help” to pay for prescription drugs. The LIS programs in Hawaii include Aetna Medicare Rx Saver, Express Scripts Medicare - Value, SilverScript Choice, and Symphonix Value Rx.¹

**STANDARD PRIOR AUTHORIZATION (PA) FORM**

- As of June 2018, a standard PA Form has not been fully instituted in the state of Hawaii.²

**TREATMENT ACCESS: GET ON IT & STAY ON IT**

**CONTINUITY OF CARE/NON-MEDICAL SWITCHING:**
- Hawaii does not appear to have any continuity of care provisions or non-medical switching limitations that apply specifically to prescription drug coverage, but does have protection related to the continued treatment by a physician.

**STEP THERAPY:**
- Hawaii does not appear to have any laws or regulations that apply specifically to step therapy/fail-first requirements, although several pieces of legislation are pending that would address the use of step therapy.

**ORAL PARITY LAW**

- On January 1, 2010, Hawaii’s oral parity law was enacted to direct payers that provide coverage for the treatment of cancer to provide coverage for orally administered chemotherapy at a cost no less favorable to intravenously administered or injected chemotherapy.³

**MEDICAID EXPANSION**

- Because Hawaii has expanded Medicaid, free or low-cost health coverage is available to people with incomes below a certain level regardless of disability, family status, financial resources, and other factors that are usually taken into account in Medicaid eligibility decisions.⁴ For more details on Medicaid expansion in Hawaii, click here.

**BIOSIMILAR LEGISLATION**

- In Hawaii, biosimilar substitution laws allow pharmacists to substitute a biological product for the prescribed reference biologic if it is deemed to be an “interchangeable” biosimilar by the U.S. Food and Drug Administration (FDA) and meets other state law requirements. Currently, there are no interchangeable biological products. Pharmacists must inform consumers of interchangeable biological products from the Hawaii list when filling a prescription order and to communicate the product name and manufacturer to the practitioner after dispensing the product. Less expensive interchangeable biological products must be offered to the consumer.²

**PROGRAM NAME:** Sage PLUS Hawaii State Health Insurance Assistance Program (SHIP)

**Phone:** 1-888-875-9229

**ABOUT:**
- Sage PLUS offers one-to-one counseling and assistance to people with Medicare and their families. Free counseling and assistance is provided via telephone calls, face to face meetings, and public education presentations.³

**LOW-INCOME SUBSIDY (LIS) PROGRAMS**

- Medicare patients who have limited income and resources may qualify for “Extra Help” to pay for prescription drugs. The LIS programs in Illinois include Aetna Medicare Rx Saver, Blue Cross MedicareRx Basic, Cigna-HealthSpring Rx Secure, EnvisionRxPlus, Humana Preferred Rx Plan, SilverScript Choice, Symphonix Value Rx, and WellCare Classic.

**STANDARD PRIOR AUTHORIZATION (PA) FORM**

- As of June 2018, a standard PA Form has not been fully instituted in the state of Illinois.

**TREATMENT ACCESS: GET ON IT & STAY ON IT**

**CONTINUITY OF CARE/NON-MEDICAL SWITCHING**: Health insurers must grant a formulary exception if, among other reasons, “the patient is stable on a prescription drug selected by his or her healthcare provider for the medical condition under consideration while on a current or previous health insurance or health benefit plan.”

**STEP THERAPY**: Illinois requires health insurers that offer qualified health plans to implement an exceptions process for step therapy requirements and formulary exclusions and must grant these requests in certain situations.

**ORAL PARITY LAW**

- On January 1, 2012, Illinois oral parity law was enacted to direct payers that provide coverage for cancer chemotherapy treatment to (1) extend coverage for orally administered anti-cancer medication at a cost no less favorable to the cost of intravenously administered or injected anti-cancer medications, and (2) to maintain established cost-sharing rates and benefit classification for intravenous and/or injectable treatments (ie, rates cannot be increased in order to comply with this legislation).

**MEDICAID EXPANSION**

- Because Illinois has expanded Medicaid, free or low-cost health coverage is available to people with incomes below a certain level regardless of disability, family status, financial resources, and other factors that are usually taken into account in Medicaid eligibility decisions. For more details on Medicaid expansion in Illinois, click here.

**BIOSIMILAR LEGISLATION**

- In Illinois, biosimilar substitution laws allow pharmacists to substitute a biological product for the prescribed reference biologic only if it is deemed to be an “interchangeable” biosimilar by the U.S. Food and Drug Administration (FDA) and meets other state law requirements. Currently, there are no interchangeable biological products.

Eligible veterans may have options through the Veterans Choice Program. Click here for eligibility details: https://www.va.gov/OPA/CHOICEACT/
ADDITIONAL PROGRAMS/RESOURCES

• Medicare patients who have limited income and resources may qualify for “Extra Help” to pay for prescription drugs. The LIS programs in Indiana include Aetna Medicare Rx Saver, Cigna-HealthSpring Rx Secure, Express Scripts Medicare - Value, Humana Preferred Rx Plan, SilverScript Choice, Symphonix Value Rx, and WellCare Classic.1

STANDARD PRIOR AUTHORIZATION (PA) FORM

• As of January 1, 2018, a health plan shall accept and respond to a request for prior authorization delivered to the health plan by a covered individual’s prescribing healthcare provider or dispensing pharmacist through an electronic transmission that complies with the technical standards developed by the National Council for Prescription Drug Programs for electronic prior authorization transactions.2

TREATMENT ACCESS: GET ON IT & STAY ON IT

CONTINUITY OF CARE/NON-MEDICAL SWITCHING:2
• Indiana offers some protection against formulary changes by requiring plans to provide an enrollee with a 60-day supply of a prescription drug subject to the formulary removal or change under the terms that applied before the removal or change.

STEP THERAPY:2
• Certain health plans must establish a protocol exception process to a plan’s step therapy requirement, and grant exception requests in certain situations.

ORAL PARITY LAW

• Effective July 1, 2009, Indiana law requires that coverage for orally administered cancer chemotherapy must not be subject to limits less favorable than for chemotherapy administered intravenously or by injection. Coverage for oral chemotherapy must not be subject to dollar limits, co-payments, deductibles, or coinsurance provisions that are less favorable to enrollees than the provisions that apply for intravenous or injected chemotherapy treatments.3

BIOSIMILAR LEGISLATION

• In Indiana, biosimilar substitution laws allow pharmacists to substitute a biological product for the prescribed reference biologic only if it is deemed to be an “interchangeable” biosimilar by the U.S. Food and Drug Administration (FDA) and meets other state law requirements. Currently, there are no interchangeable biological products.2

MEDICAID EXPANSION

• Because Indiana has expanded Medicaid, free or low-cost health coverage is available to people with incomes below a certain level regardless of disability, family status, financial resources, and other factors that are usually taken into account in Medicaid eligibility decisions. However, Indiana has obtained federal approval to require that non-exempt individuals work a certain number of hours per week to be eligible for Medicaid benefits, effective 2019. For more details on Medicaid expansion in Indiana, click here.4

STATE HEALTH INSURANCE ASSISTANCE PROGRAMS (SHIPs)

PROGRAM NAME: Senior Health Insurance Program (SHIP)
Phone: 1-800-452-4800

ABOUT:
• SHIP sites are located throughout the state of Indiana. Patients can visit a local SHIP site in order to arrange an in-person counselor meeting or to have questions answered by phone.
• Counselors are trained volunteers who can answer questions about Medicare, Medicare Advantage, Medicare supplemental insurance, Medicaid, long-term care insurance, prescription coverage, or low-income assistance.3

### LOW-INCOME SUBSIDY (LIS) PROGRAMS

- Medicare patients who have limited income and resources may qualify for “Extra Help” to pay for prescription drugs. The LIS programs in Kansas include Aetna Medicare Rx Saver, Humana Preferred Rx Plan, SilverScript Choice, and WellCare Classic.¹

### STANDARD PRIOR AUTHORIZATION (PA) FORM

- As of June 2018, a standard PA Form has not been fully instituted in the state of Kansas.²

### TREATMENT ACCESS: GET ON IT & STAY ON IT

- Continuity of Care/Non-Medical Switching: Kansas does not appear to have continuity of care provisions or non-medical switching limitations that apply specifically to prescription drug coverage.

#### STEP THERAPY:
- Kansas Medicaid (KanCare) allows for health insurers to engage in step therapy, but requires that they grant exception requests in certain situations and provides for a 72-hour expedited appeal process. Additionally, step therapy may not be used in certain situations if a patient is receiving treatment for multiple sclerosis. Proposed legislation would require insurance plans requiring step therapy to establish guidelines and provide for an accessible override process. The bill would also require automatic exceptions to a step therapy protocol based on medical necessity.

### MEDICAID EXPANSION

- As of June 2018, the state of Kansas has not expanded Medicaid.⁴

### ORAL PARITY LAW

- On April 1, 2010, an oral parity law was enacted to direct payers that provide coverage for cancer chemotherapy treatments to extend coverage for prescribed, orally administered anti-cancer medications at a cost no less favorable than the cost of intravenously administered anti-cancer medications.³

### BIOSIMILAR LEGISLATION

- On April 12, 2017, Kansas’s governor approved a bill designed to regulate pharmacist substitution of biosimilar products. The biosimilar substitution law allows pharmacists to substitute a biological product for the prescribed reference biologic only if it is deemed to be an “interchangeable” biosimilar by the U.S. Food and Drug Administration (FDA) and meets other state law requirements. The bill also requires pharmacists to notify the patient and prescriber of the substitution of a biological product within 5 days of the exchange and establishes recording requirements. A pharmacist may not substitute a biosimilar product for a biologic if the provider notes “dispense as written” on the prescription.²

### STATE PHARMACEUTICAL ASSISTANCE PROGRAMS (SPAPs)

#### Kansas AIDS Drug Assistance Program (ADAP)

- Program Name: Kansas AIDS Drug Assistance Program (ADAP)
- Phone: 1-785-296-1982

### STATE HEALTH INSURANCE ASSISTANCE PROGRAMS (SHIPs)

- Program Name: Senior Health Insurance Counseling for Kansas (SHICK)
- Phone: 1-800-860-5260

#### ABOUT:
- SHICK is a free program offering older Kansans an opportunity to talk with trained, community volunteers and get answers to questions about Medicare and other insurance issues. SHICK provides many resources to assist with navigating Medicare.
- Volunteer counselors are trained on Medicare, Medicare supplemental insurance, long-term care, and other health insurance topics. The volunteer’s role is to help people stay informed on changing conditions in healthcare insurance and to simplify the process. Volunteers do not work for any insurance companies. Their purpose is to educate and assist the public to make informed decisions.⁶

ADDITIONAL PROGRAMS/RESOURCES

LEARN
MORE

LOW-INCOME SUBSIDY (LIS)
PROGRAMS

- Medicare patients who have limited income and resources may qualify for "Extra Help" to pay for prescription drugs. The LIS programs in Kentucky include Aetna Medicare Rx Saver, Cigna-HealthSpring Rx Secure, Express Scripts Medicare - Value, Humana Preferred Rx Plan, SilverScript Choice, Symphonix Value Rx, and WellCare Classic.1

STANDARD PRIOR AUTHORIZATION (PA) FORM

- As of June 2018, a standard PA Form has not been fully instituted in the state of Kentucky.2

TREATMENT ACCESS: GET ON IT & STAY ON IT

- Kentucky does not appear to have any continuity of care provisions that would apply to prescription drug coverage, but does require that managed care plans provide continuity of care for providers in specified situations.

STANDARD PRIOR
AUTORIZATION (PA) FORM

- Kentucky has limitations on step therapy protocols, including requiring a clear and abbreviated exception process and affording relatively broad authority to the prescriber to override a step therapy process. Additionally, managed care plans in Kentucky must have an exceptions policy for drugs that are not included on the formulary.

CONTINUITY OF CARE/NON-MEDICAL SWITCHING:

- Because Kentucky has expanded Medicaid, free or low-cost health coverage is available to people with incomes below a certain level regardless of disability, family status, financial resources, and other factors that are usually taken into account in Medicaid eligibility decisions. For more details on Medicaid expansion in Kentucky, click here.4

ORAL PARITY LAW

- Kentucky passed oral parity legislation for health policies issued or renewed on or after January 1, 2015. This law directs payers that provide coverage for cancer treatment to extend coverage for prescribed, orally administered anti-cancer medications at a cost to patients no less favorable than that of those receiving intravenously administered or injected anti-cancer therapies.5

- Additionally, if the total amount paid for oral anti-cancer medications is limited to $100 per prescription, they are also in compliance with the law. Plans may not increase the out-of-pocket cost to patients or reclassify benefits to achieve compliance. Finally, if a consumer purchases a high deductible health plan, the deductible must be met before the cap applies.6

MEDICAID EXPANSION

- Kentucky passed Medicaid expansion legislation for health policies issued or renewed on or after January 1, 2014. For more details on Medicaid expansion in Kentucky, click here.7

BIOSIMILAR LEGISLATION

- In Kentucky, biosimilar substitution laws allow pharmacists to substitute a biological product for the prescribed reference biologic only if it is deemed to be an "interchangeable" biosimilar by the U.S. Food and Drug Administration (FDA) and meets other state law requirements. Currently, there are no interchangeable biological products.2

STATE HEALTH INSURANCE ASSISTANCE PROGRAMS (SHIPs)

PROGRAM NAME:

Kentucky State Health Insurance Assistance Program (SHIP)

Phone: 1-877-293-7447

**LOW-INCOME SUBSIDY (LIS) PROGRAMS**

- Medicare patients who have limited income and resources may qualify for “Extra Help” to pay for prescription drugs. The LIS programs in Louisiana include Aetna Medicare Rx Saver, Express Scripts Medicare - Value, Humana Preferred Rx Plan, SilverScript Choice, Symphonix Value Rx, and WellCare Classic.1

**STANDARD PRIOR AUTHORIZATION (PA) FORM**

- As of June 2018, a standard PA Form has not been fully instituted in the state of Louisiana.2

**TREATMENT ACCESS: GET ON IT & STAY ON IT**

**CONTINUITY OF CARE/NON-MEDICAL SWITCHING**: Louisiana offers a transition period and appeals process for enrollees faced with a non-medical switching situation. Health plans are required to cover a prescription drug that had been previously approved for coverage at the same level “until the enrollee’s renewal date.” As of January 1, 2017, state law now requires plans to give 60-days’ notice to enrollees affected by a coverage change for drugs or “intravenous infusions” to allow the enrollee to file an appeal to continue on previously prescribed therapy.

**STEP THERAPY**: Louisiana does have limitations on step therapy protocols, including requiring a clear and abbreviated exception process, and requiring a step therapy protocol override in certain circumstances. Additionally, managed care plans in Louisiana must have an exceptions policy for drugs that are not included on the formulary.

**ORAL PARITY LAW**

- Effective January 1, 2013, Louisiana implemented a law that directs health insurers who provide coverage for cancer treatment to extend coverage for prescribed orally administered anti-cancer medications at a cost to patients that is no less favorable than that of those receiving intravenously administered or injected anti-cancer therapies.
- Additionally, if a health plan limits the total amount paid for oral anti-cancer medications to $100 per prescription, the plan is also in compliance with the law. However, high deductible health plans and plans purchased through the Exchange are excluded. Plans may not increase cost-sharing for IV medications or reclassify benefits to reach compliance, nor can plans apply prior authorization measures that don’t also apply to IV medications.3

**MEDICAID EXPANSION**

- Because Louisiana has expanded Medicaid, free or low-cost health coverage is available to people with incomes below a certain level regardless of disability, family status, financial resources, and other factors that are usually taken into account in Medicaid eligibility decisions.4 For more details on Medicaid expansion in Louisiana, click here.

**BIOSIMILAR LEGISLATION**

- In Louisiana, biosimilar substitution laws allow pharmacists to substitute a biological product for the prescribed reference biologic only if it is deemed to be an “interchangeable” biologic by the U.S. Food and Drug Administration (FDA) and meets other state law requirements. Currently, there are no interchangeable biological products.2

LOW-INCOME SUBSIDY (LIS) PROGRAMS

- Medicare patients who have limited income and resources may qualify for “Extra Help” to pay for prescription drugs. The LIS programs in Maine include Aetna Medicare Rx Saver, Cigna-HealthSpring Rx Secure, EnvisionRxPlus, Humana Preferred Rx Plan, SilverScript Choice, Symphonix Value Rx, and WellCare Classic.¹

STANDARD PRIOR AUTHORIZATION (PA) FORM

- As of June 2018, a standard PA Form has not been fully instituted in the state of Maine.²

TREATMENT ACCESS: GET ON IT & STAY ON IT

CONTINUITY OF CARE/NON-MEDICAL SWITCHING²:
- Maine requires health plans to cover previously approved prescription drugs for transitioning enrollees until the new insurance carrier conducts a review of the previous carrier’s prior authorization. Further, the prior authorization of the previous carrier must be honored for up to six months if requested during the review by the enrollee’s provider during participation in the review.

STEP THERAPY²:
- Maine does not appear to have any provisions limiting the use of step therapy protocols. However, Maine requires health plans to provide explanations of step therapy requirements on publicly accessible websites. Legislation introduced in 2017 would require an insurer to base its step therapy protocol on established clinical criteria and provide a clear and abbreviated exception process.

ORAL PARITY LAW

- Maine passed legislation that applies to insurance plans issued or renewed on or after January 1, 2015. The law directs payers that provide coverage for cancer chemotherapy treatment to extend coverage for orally administered anti-cancer medication at a cost equal to the cost of intravenously administered or injected anti-cancer medications. Additionally, plans may not increase cost-sharing to patients for IV medications or reclassify benefits to be in compliance.³

MEDICAID EXPANSION (NOT FULLY ADOPTED)

- As of May 2018, Maine has voted to expand Medicaid, but it is unclear whether it will be implemented.²⁴

BIOSIMILAR LEGISLATION

- As of June 2018, biosimilar legislation in the state of Maine has not been instituted.²

STATE HEALTH INSURANCE ASSISTANCE PROGRAMS (SHIPs)

LOW-INCOME SUBSIDY (LIS) PROGRAMS

• Medicare patients who have limited income and resources may qualify for “Extra Help” to pay for prescription drugs. The LIS programs in Maryland include AARP® MedicareRx Saver Plus, Aetna Medicare Rx Saver, Cigna-HealthSpring Rx Secure, EnvisionRxPlus, Express Scripts Medicare - Value, Humana Preferred Rx Plan, Magellan Rx Medicare Basic, SilverScript Choice, Symphonix Value Rx, and WellCare Classic.

STANDARD PRIOR AUTHORIZATION (PA) FORM

• As of June 2018, a standard PA Form has not been fully instituted in the state of Maryland.

TREATMENT ACCESS: GET ON IT & STAY ON IT

CONTINUITY OF CARE/NON-MEDICAL SWITCHING:

• Maryland law provides some protections against non-medical switching by limiting the circumstances under which pharmacy benefits managers may make “therapeutic interchanges” involving prescription drugs. Maryland’s continuity of care provisions apply in the limited context of a patient transitioning between health insurance plans.

STEP THERAPY:

• Maryland prohibits the use of step therapy if the prescription drug is used to treat advanced cancer and the use is consistent with best practices. Additionally, health insurers must establish and implement a process by which an enrollee may receive a prescription drug that is not on formulary.

ORAL PARITY LAW

• On October 1, 2012, an oral parity law was enacted to direct payers that provide coverage for cancer chemotherapy treatments to extend coverage for prescribed, orally administered anti-cancer medications at a cost no less favorable than the cost of intravenously administered anti-cancer medications. This legislation also mandates payers to not increase cost-sharing for IV treatments or reclassify benefits in order to comply.

MEDICAID EXPANSION

• Because Maryland has expanded Medicaid, free or low-cost health coverage is available to people with incomes below a certain level regardless of disability, family status, financial resources, and other factors that are usually taken into account in Medicaid eligibility decisions. For more details on Medicaid expansion in Maryland, click here.

BIOSIMILAR LEGISLATION

• Effective October 1, 2017, a pharmacist may substitute a biosimilar for the prescribed reference biologic if: (1) the U.S. Food and Drug Administration (FDA) has determined that it is “interchangeable” with the prescribed biologic; (2) the biosimilar is less expensive than the prescribed biologic; and (3) the prescribing provider has not indicated that no substitution can be made. The pharmacist would be required to notify the prescribing practitioner and the patient about the substitution within 5 days of the submission and meet certain reporting requirements. Currently, there are no interchangeable biological products.

ADDITIONAL PROGRAMS/RESOURCES

For general medication access and affordability options resources, as well as questions or concerns regarding state issues requiring legislative intervention, please visit the following pages within this document:

Eligible veterans may have options through the Veterans Choice Program. Click here for eligibility details:

https://www.va.gov/OPA/CHOICEACT/
**LOW-INCOME SUBSIDY (LIS) PROGRAMS**
- Medicare patients who have limited income and resources may qualify for “Extra Help” to pay for prescription drugs. The LIS programs in Massachusetts include Aetna Medicare Rx Saver, EnvisionRxPlus, Express Scripts Medicare - Value, Humana Preferred Rx Plan, SilverScript Choice, Symphonix Value Rx, and WellCare Classic.1

**STANDARD PRIOR AUTHORIZATION (PA) FORM**
- Prescribers can submit a standard drug PA request form for prescription drug benefits. This form was implemented in Massachusetts to help simplify and streamline the PA process for prescription drugs. The form is available at [www.mass.gov/ocabr/docs/doi/bulletins/2016-08-form1-medication.pdf](http://www.mass.gov/ocabr/docs/doi/bulletins/2016-08-form1-medication.pdf).2

**TREATMENT ACCESS: GET ON IT & STAY ON IT**

**CONTINUITY OF CARE/NON-MEDICAL SWITCHING:**
- Massachusetts does not appear to have continuity of care provisions or limitations on non-medical switching that apply to prescription drug coverage.

**STEP THERAPY:**
- Massachusetts does not appear to have any provisions limiting the use of step therapy protocols. Massachusetts does provide that managed care plans must provide easy access to current formularies in writing, via the internet and by phone. Also the state has a catastrophic prescription drug plan, which provides assistance for elderly individuals in the state and allows them to obtain a non-preferred drug at the co-payment level of a preferred drug and provides for an appeal of the exclusion of any prescription drug from any formulary established under the program. Proposed legislation would establish an exceptions process for step therapy requirements and limit an insurer’s ability to use step therapy protocols.

**ORAL PARITY LAW**
- On May 1, 2013, Massachusetts implemented oral parity legislation to direct payers that provide coverage for cancer chemotherapy to extend coverage for prescribed, orally administered anti-cancer medications at a cost to the patient that is no less favorable than those receiving intravenously administered or injected cancer medications. Additionally, plans may not increase the out-of-pocket cost to patients to achieve compliance.3

**MEDICAID EXPANSION**
- Because Massachusetts has expanded Medicaid, free or low-cost health coverage is available to people with incomes below a certain level regardless of disability, family status, financial resources, and other factors that are usually taken into account in Medicaid eligibility decisions.4 For more details on Medicaid expansion in Massachusetts, click here.

**BIOSIMILAR LEGISLATION**
- In Massachusetts, biosimilar substitution laws allow pharmacists to substitute a biological product for the prescribed reference biologic only if it is deemed to be an “interchangeable” biosimilar by the U.S. Food and Drug Administration (FDA) and meets other state law requirements. Currently, there are no interchangeable biological products.2

LOW-INCOME SUBSIDY (LIS) PROGRAMS

- Medicare patients who have limited income and resources may qualify for “Extra Help” to pay for prescription drugs. The LIS programs in Minnesota include Aetna Medicare Rx Saver, Humana Preferred Rx Plan, SilverScript Choice, Symphonix Value Rx, and WellCare Classic.¹

STANDARD PRIOR AUTHORIZATION (PA) FORM

- Prescribers can submit a standard drug PA request form for prescription drug benefits. This form was implemented in Minnesota to help simplify and streamline the PA process for prescription drugs. The form is available at http://www.health.state.mn.us/asa/rxpaform.html.²

TREATMENT ACCESS: GET ON IT & STAY ON IT

CONTINUITY OF CARE/NON-MEDICAL SWITCHING:²
- Minnesota law provides some protections against non-medical switching and provides for continuity of care, but only in the context of prescribed drugs that treat a “diagnosed mental illness or emotional disturbance.” Currently, proposed legislation would set rules for prescription drug formularies and include notice requirements for changes to a formulary during the plan year.

STEP THERAPY:²
- Effective January 1, 2019, health plan companies must provide a clear, readily accessible, and convenient step therapy override process in certain clinical situations. However, the law does not prohibit health plan companies from requiring enrollees to try another drug or pharmacological alternative.

ORAL PARITY LAW

- On May 14, 2010, an oral parity law was enacted to direct payers that provide coverage for cancer chemotherapy treatments to extend coverage for prescribed, orally administered anti-cancer medications at a cost no less favorable than the cost of intravenously administered or injected anti-cancer medications. However, plans may be in compliance if oral anti-cancer medications are not placed on the fourth drug tier.²

MEDICAID EXPANSION

- Because Minnesota has expanded Medicaid, free or low-cost health coverage is available to people with incomes below a certain level regardless of disability, family status, financial resources, and other factors that are usually taken into account in Medicaid eligibility decisions.² For more details on Medicaid expansion in Minnesota, click here.

BIOSIMILAR LEGISLATION

- In Minnesota, biosimilar substitution laws allow pharmacists to substitute a biological product for the prescribed reference biologic only if it is deemed to be an “interchangeable” biosimilar by the U.S. Food and Drug Administration (FDA) and meets other state law requirements. Currently, there are no interchangeable biological products.²

STATE HEALTH INSURANCE ASSISTANCE PROGRAMS (SHIPs)

PROGRAM NAME: The Statewide Health Improvement Program (SHIP)
Phone: 1-800-333-2433

ABOUT:
- The Minnesota Board on Aging certifies a team of volunteers to help seniors make informed choices about insurance. The service is called the Minnesota SHIP, and is a network of local programs that provide information, counseling, and assistance to all Medicare-eligible persons across the state.
- SHIP was formed in Minnesota in 1993 as a result of an initiative of the Centers for Medicare & Medicaid Services (CMS).³

**LOW-INCOME SUBSIDY (LIS) PROGRAMS**

- Medicare patients who have limited income and resources may qualify for “Extra Help” to pay for prescription drugs. The LIS programs in Mississippi include Aetna Medicare Rx Saver, EnvisionRxPlus, Humana Preferred Rx Plan SilverScript Choice, Symphonix Value Rx, and WellCare Classic.

**STANDARD PRIOR AUTHORIZATION (PA) FORM**

- As of June 2018, a standard PA Form has not been fully instituted in the state of Mississippi.

**TREATMENT ACCESS: GET ON IT & STAY ON IT**

**CONTINUITY OF CARE/NON-MEDICAL SWITCHING:**

- Mississippi does not appear to have continuity of care or non-medical switching laws that are applicable to prescription drug coverage.

**STEP THERAPY:**

- Mississippi requires a health benefit plan to grant a step therapy exception request under certain situations. Further, Mississippi law limits the duration of any step therapy or fail-first protocol to 30 days when the treatment is determined to be clinically ineffective by the prescribing practitioner.

**ORAL PARITY LAW**

- Legislation has been put into effect for health policies issued or renewed on or after July 1, 2015, requiring payers to provide coverage for cancer treatment to extend coverage for orally administered anti-cancer medication at a cost no less favorable to intravenously administered or injected cancer medications. This legislation also mandates payers to not increase cost-sharing for IV treatments or reclassify benefits in order to comply.¹

**MEDICAID EXPANSION**

- As of June 2018, the state of Mississippi has not expanded Medicaid.²

**BIOSIMILAR LEGISLATION**

- As of June 2018, biosimilar legislation in the state of Mississippi has not been instituted.²

**STATE HEALTH INSURANCE ASSISTANCE PROGRAMS (SHIPs)**

**PROGRAM NAME:**

State Health Insurance Assistance Program (SHIP)

**Phone:** 1-800-345-6347

**ABOUT:**

- SHIP is a counseling program from the Mississippi Department of Human Services designed to answer the elderly’s questions about health insurance. Topics include Medicare, Medicaid, supplemental insurance, or other coverage. Volunteers are trained to answer questions, compare policies, organize paperwork, and help with claims and filing appeals.³

LOW-INCOME SUBSIDY (LIS) PROGRAMS

- Medicare patients who have limited income and resources may qualify for “Extra Help” to pay for prescription drugs. The LIS programs in Missouri include Aetna Medicare Rx Saver, Humana Preferred Rx Plan, SilverScript Choice, and WellCare Classic.¹

STANDARD PRIOR AUTHORIZATION (PA) FORM

- As of June 2018, a standard PA Form has not been fully instituted in the state of Missouri.²

TREATMENT ACCESS:
GET ON IT & STAY ON IT

CONTINUITY OF CARE/NON-MEDICAL SWITCHING²:
- Missouri does not appear to have continuity of care provisions or limitations on non-medical switching that apply to prescription drug coverage. Health insurers must notify enrollees currently taking a drug at least 30 days prior to any changes in coverage that would affect them.

STEP THERAPY²:
- Missouri requires health plans to establish a step therapy override process and grant an exception in certain circumstances. Additional documentation may be requested and the requested therapy must be on the formulary.

ORAL PARITY LAW

- Legislation has been put into effect for health policies issued or renewed on or after January 1, 2015, requiring payers to provide coverage for cancer treatment to extend coverage for orally administered anti-cancer medication at a cost no less favorable to intravenously administered or injected cancer medications. A health benefit plan is also in compliance if they charge no more than $75 per prescription for the orally administered anti-cancer treatment. Insurers may increase the cap annually based on the Consumer Price Index (CPI). However, this legislation also mandates payers to not increase cost-sharing for IV treatments or reclassify benefits in order to comply.³

MEDICAID EXPANSION

- As of June 2018, the state of Missouri has not expanded Medicaid.⁴

BIOSIMILAR LEGISLATION

- In Missouri, biosimilar substitution laws allow pharmacists to substitute a biological product for the prescribed reference biologic only if it is deemed to be an “interchangeable” biosimilar by the U.S. Food and Drug Administration (FDA) and meets other state law requirements. Currently, there are no interchangeable biological products.²

LOW-INCOME SUBSIDY (LIS) PROGRAMS

Medicare patients who have limited income and resources may qualify for “Extra Help” to pay for prescription drugs. The LIS programs in Nebraska include Aetna Medicare Rx Saver, Humana Preferred Rx Plan, SilverScript Choice, Symphonix Value Rx, and WellCare Classic.1

STANDARD PRIOR AUTHORIZATION (PA) FORM

As of June 2018, a standard PA Form has not been fully instituted in the state of Nebraska.2

TREATMENT ACCESS: GET ON IT & STAY ON IT

CONTINUITY OF CARE/NON-MEDICAL SWITCHING:
Nebraska does not appear to have any continuity of care provisions or limitations on non-medical switching specific to prescription drugs.

STEP THERAPY:
Nebraska does not appear to have any laws or regulations that apply specifically to step therapy/fail-first requirements.

ORAL PARITY LAW

On April 2, 2012, Nebraska implemented oral parity, which requires payers to cover orally administered anti-cancer medication at a cost to patients equal to those receiving intravenously administered or injected anti-cancer medications.3

MEDICAID EXPANSION

As of June 2018, the state of Nebraska has not expanded Medicaid.4

BIOSIMILAR LEGISLATION

Effective January 1, 2018, a pharmacist may substitute a biosimilar for the prescribed reference biologic if: (1) the U.S. Food and Drug Administration (FDA) has determined that it is “interchangeable” with the prescribed biologic; and (2) the prescribing provider has not indicated that no substitution can be made. The pharmacist will be required to notify the prescribing practitioner and the patient about the substitution within 3 days of the substitution and meet certain reporting requirements. Currently, there are no interchangeable biological products.2

STATE HEALTH INSURANCE ASSISTANCE PROGRAMS (SHIPs)

PROGRAM NAME:
The Nebraska Senior Health Insurance Information Program (SHIIP)

LOW-INCOME SUBSIDY (LIS) PROGRAMS

• Medicare patients who have limited income and resources may qualify for “Extra Help” to pay for prescription drugs. The LIS programs in Nevada include Aetna Medicare Rx Saver, Humana Preferred Rx Plan, and Symphonix Value Rx.1

STANDARD PRIOR AUTHORIZATION (PA) FORM

• As of June 2018, a standard PA Form has not been fully instituted in the state of Nevada.2

TREATMENT ACCESS: GET ON IT & STAY ON IT

CONTINUITY OF CARE/ NON-MEDICAL SWITCHING2:
• Nevada provides that a health insurance policy that covers prescription drugs must not limit or exclude coverage for a drug if it had previously been approved under certain circumstances. In addition, Nevada enacted a law that went into effect January 1, 2019, which prohibits an insurer from increasing co-payments to a higher cost tier from original coverage for a prescription drug pursuant to a formulary with more than one cost tier.

STEP THERAPY:
• Nevada does not appear to have any laws or regulations that apply specifically to step therapy/fail-first requirements.

ORAL PARITY LAW

• Nevada implemented legislation for health policies issued or renewed on or after January 1, 2015. This law requires payers that provide coverage for chemotherapy to treat cancer to establish cost-sharing of more than $100 per prescription for orally administered anti-cancer treatment. Additionally, plans may not increase the out-of-pocket cost for IV chemotherapy treatments to over $100 to achieve compliance.3

MEDIACID EXPANSION

• Because Nevada has expanded Medicaid, free or low-cost health coverage is available to people with incomes below a certain level regardless of disability, family status, financial resources, and other factors that are usually taken into account in Medicaid eligibility decisions.4 For more details on Medicaid expansion in Nevada, click here.

BIOSIMILAR LEGISLATION

• Effective January 1, 2018, a pharmacist may substitute a biosimilar for the prescribed reference biologic if: (1) the U.S. Food and Drug Administration (FDA) has determined that it is “interchangeable” with the prescribed biologic; (2) the biosimilar is less expensive than the prescribed biologic; and (3) the prescribing provider has not indicated that no substitution can be made orally or by writing “dispense as written” or “d.a.w.” on the prescription. The pharmacist will be required to notify the prescribing practitioner and the patient about the substitution within 3 days of the substitution and meet certain reporting requirements. The pharmacist must prescribe the substitute if the pharmacist is being paid by a government agency. Currently, there are no interchangeable biological products.5

New Hampshire

ADDITIONAL PROGRAMS/RESOURCES

**LOW-INCOME SUBSIDY (LIS) PROGRAMS**
- Medicare patients who have limited income and resources may qualify for “Extra Help” to pay for prescription drugs. The LIS programs in New Hampshire include Aetna Medicare Rx Saver, Cigna-HealthSpring Rx Secure, EnvisionRxPlus, Humana Preferred Rx Plan, SilverScript Choice, Symphonix Value Rx, and WellCare Classic.¹

**STANDARD PRIOR AUTHORIZATION (PA) FORM**
- New Hampshire has enacted legislation and/or implemented regulations requiring the use of uniform prior authorization forms, but has not yet released uniform prior authorization forms.²

**TREATMENT ACCESS: GET ON IT & STAY ON IT**
- **CONTINUITY OF CARE/NON-MEDICAL SWITCHING**: A health plan must notify a covered person of a change in the formulary and must allow at least 45 days before implementation of any formulary deletions. Every health benefit plan that provides prescription drug benefits shall provide notice of deletions to the plan list or plan formulary to all covered persons at least annually.

- **STEP THERAPY**: New Hampshire provides that health benefit plans may not require failure of the same drug more than once. Every health benefit plan that covers prescription drugs must allow a covered person to obtain an emergency prescription for up to 72 hours of a prescription drug on the covered person’s health benefit plan formulary in the event the plan requires prior authorization by an insurance carrier and the prior authorization has neither been approved or denied and a pharmacist has determined that the medication is essential.³

**ORAL PARITY LAW**
- New Hampshire implemented legislation, effective January 1, 2017, limiting the ability of an insurer to charge more for an oral chemotherapy drug than it does for an anti-cancer medication that is injected or intravenously administered. No insurer that provides for anti-cancer medications that are injected or intravenously administered by a healthcare provider and patient administered anti-cancer medications, including those orally administered or self-injected, can require a higher co-payment, deductible, or coinsurance amount, for patient administered or anti-cancer treatment. If the cost-sharing requirements for orally administered anti-cancer medications do not exceed $200 per prescription fill, the health plan will be deemed to comply with this law. This law applies only to oral anti-cancer medications where an intravenously administered or injected anti-cancer medication are not medically appropriate.³

**MEDICAID EXPANSION**
- Because New Hampshire has expanded Medicaid, free or low-cost health coverage is available to people with incomes below a certain level regardless of disability, family status, financial resources, and other factors that are usually taken into account in Medicaid eligibility decisions.⁴ For more details on Medicaid expansion in New Hampshire, click here.

**BIOSIMILAR LEGISLATION**
- As of June 2018, biosimilar legislation in the state of New Hampshire has not been instituted.⁵

To view a glossary of common healthcare terms, visit: http://khn.org/glossary/
New Jersey

**LOW-INCOME SUBSIDY (LIS) PROGRAMS**

- Medicare patients who have limited income and resources may qualify for "Extra Help" to pay for prescription drugs. The LIS programs in New Jersey include AARP® MedicareRx Saver Plus, Aetna Medicare Rx Saver, Express Scripts Medicare - Value, Humana Preferred Rx Plan, SilverScript Choice, Symphonix Value Rx, and WellCare Classic.¹

**STANDARD PRIOR AUTHORIZATION (PA) FORM**

- As of June 2018, a standard PA Form has not been fully instituted in the state of New Jersey.²

**TREATMENT ACCESS: GET ON IT & STAY ON IT**

**CONTINUITY OF CARE/NON-MEDICAL SWITCHING:**

- New Jersey does not appear to have continuity of care protections or non-medical switching limitations that apply specifically to prescription drug benefits. Insurance companies may not place a prescription drug on a formulary tier that increases all the covered persons’ cost-sharing obligations.

**STEP THERAPY:**

- Healthcare plans must provide for an exceptions process for non-formulary medications that are deemed “medically necessary” according to specified criteria. Proposed legislation would require that health benefits plans grant exception requests in specific circumstances. Additionally, the duration of any step therapy or fail-first protocol would not be longer than the period deemed necessary by the prescriber to determine the treatment’s clinical effectiveness.

**ORAL PARITY LAW**

- New Jersey implemented legislation effective July 16, 2012, requiring payers to cover orally administered anti-cancer medication at a cost to patients equal to those receiving intravenously administered or injected anti-cancer medications. Additionally, orally administered anti-cancer medications must not be subject to any prior approval, dollar limit, co-payment, deductible or coinsurance provision that does not apply to intravenously administered or injected anti-cancer medications. Finally, plans may not increase the out-of-pocket cost to patients to achieve compliance.³

**MEDICAID EXPANSION**

- Because New Jersey has expanded Medicaid, free or low-cost health coverage is available to people with incomes below a certain level regardless of disability, family status, financial resources, and other factors that are usually taken into account in Medicaid eligibility decisions.⁴ For more details on Medicaid expansion in New Jersey, click here.

**BIOSIMILAR LEGISLATION**

- In New Jersey, biosimilar substitution laws allow pharmacists to substitute a biological product for the prescribed reference biologic only if it is deemed to be an “interchangeable” biosimilar by the U.S. Food and Drug Administration (FDA) and meets other state law requirements. Currently, there are no interchangeable biological products.²

**ADDITIONAL PROGRAMS/RESOURCES**

LOW-INCOME SUBSIDY (LIS) PROGRAMS

- Medicare patients who have limited income and resources may qualify for “Extra Help” to pay for prescription drugs. The LIS programs in New Mexico include Aetna Medicare Rx Saver, Blue Cross MedicareRx Basic, EnvisionRXPlus, Humana Preferred Rx Plan, SilverScript Choice, Symphonix Value Rx, and WellCare Classic.

STANDARD PRIOR AUTHORIZATION (PA) FORM

- Prescribers can submit a standard drug PA request form for prescription drug benefits. This form was implemented in New Mexico to help simplify and streamline the PA process for prescription drugs. The form is available here.

TREATMENT ACCESS: GET ON IT & STAY ON IT

- New Mexico implemented a law, effective June 17, 2011, that directs payers that provide coverage for cancer treatment to extend coverage for orally administered anti-cancer medication at a cost no less favorable to intravenously administered or injected cancer medications. Additionally, plans may not increase out-of-pocket costs for anti-cancer medications to comply with the law.

ORAL PARITY LAW

- Because New Mexico has expanded Medicaid, free or low-cost health coverage is available to people with incomes below a certain level regardless of disability, family status, financial resources, and other factors that are usually taken into account in Medicaid eligibility decisions. For more details on Medicaid expansion in New Mexico, click here.

MEDICAID EXPANSION

- New Mexico implemented a law, effective June 16, 2017, that directs payers that provide coverage for cancer treatment to extend coverage for orally administered anti-cancer medication at a cost no less favorable to intravenously administered or injected cancer medications. Additionally, plans may not increase out-of-pocket costs for anti-cancer medications to comply with the law.

BIOSIMILAR LEGISLATION

- Effective June 16, 2017, a pharmacist may substitute a biosimilar for the prescribed reference biologic if: (1) the U.S. Food and Drug Administration (FDA) has determined that it is “interchangeable” with the prescribed biologic; (2) the biosimilar is less expensive than the prescribed biologic; and (3) the prescribing provider has not indicated that no substitution can be made by writing “no substitution” or “no sub” on the prescription. The pharmacist will be required to notify the prescribing practitioner and the patient about the substitution within 5 days of the substitution and meet certain reporting requirements. Currently, there are no interchangeable biological products.

STATE HEALTH INSURANCE ASSISTANCE PROGRAMS (SHIPs)

PROGRAM NAME:
State Health Insurance Assistance Program (SHIP)
Phone: 1-800-432-2080

ABOUT:
- SHIP is a national program that offers one-on-one counseling and assistance to people with Medicare and their families. Coordinators provide benefits counseling on Medicare prescription drug programs, Social Security, Medicaid, Medicare, veterans benefits information, and related Senior Medicare Patrol billing questions and appeals.
- This SHIP ensures that older New Mexicans receive accurate, unbiased information about healthcare options and other entitlements. It does not sell, endorse, or recommend any specific insurance or other health plans.

Eligible veterans may have options through the Veterans Choice Program. Click here for eligibility details: https://www.va.gov/OIA/CHOICEACT/
• Medicare patients who have limited income and resources may qualify for "Extra Help" to pay for prescription drugs. The LIS programs in New York include Aetna Medicare Rx Saver, Cigna-HealthSpring Rx Secure, EnvisionRxPlus, Express Scripts Medicare - Value, Humana Preferred Rx Plan, Magellan Rx Medicare Basic, SilverScript Choice, and WellCare Classic.

As of June 2018, a standard PA Form has not been fully instituted in the state of New York.2

New York enacted legislation, effective January 1, 2012, that directs payers that provide coverage for cancer chemotherapy treatment to extend coverage for orally administered anti-cancer medication at a cost no less favorable to the cost of intravenously administered or injected anti-cancer medications. Additionally, plans may not increase the out-of-pocket cost to patients to achieve compliance.3

Because New York has expanded Medicaid, free or low-cost health coverage is available to people with incomes below a certain level regardless of disability, family status, financial resources, and other factors that are usually taken into account in Medicaid eligibility decisions.4 For more details on Medicaid expansion in New York, click here.

In New York, biosimilar substitution laws allow pharmacists to substitute a biological product for the prescribed reference biologic only if it is deemed to be an "interchangeable" biosimilar by the U.S. Food and Drug Administration (FDA) and meets other state law requirements. Currently, there are no interchangeable biological products.2

• New York’s step therapy law requires insurance companies, HMOs, and utilization review agents who impose step therapy protocols to provide an expedited appeal process for patients and healthcare professionals to override such protocols. These must be granted under certain situations.

LOW-INCOME SUBSIDY (LIS) PROGRAMS

- Medicare patients who have limited income and resources may qualify for “Extra Help” to pay for prescription drugs. The LIS programs in North Carolina include Aetna Medicare Rx Saver, Basic Blue Rx, EnvisionRxPlus, Humana Preferred Rx Plan, SilverScript Choice, Symphonix Value Rx, and WellCare Classic.1

STANDARD PRIOR AUTHORIZATION (PA) FORM

- As of June 2018, a standard PA Form has not been fully instituted in the state of North Carolina.2

TREATMENT ACCESS: GET ON IT & STAY ON IT

CONTINUITY OF CARE/NON-MEDICAL SWITCHING:
- North Carolina law does not appear to include any specific continuity of care provisions or non-medical switching limitations for prescription drug coverage.

STEP THERAPY:
- North Carolina law does not appear to include any specific step therapy provisions. The state does provide that if an insurer maintains one or more “closed formularies,” it must establish and maintain an expeditious process or procedure that allows an enrollee or an enrollee’s physician to obtain, without penalty or additional cost-sharing, coverage for a specific non-formulary drug determined to be medically necessary and appropriate by the enrollee’s participating physician without prior approval from the insurer under certain circumstances. Recently proposed legislation would require a health benefit plan to grant a step therapy exception request under certain situations.

ORAL PARITY LAW

- As of June 2018, the state of North Carolina has no legislation regarding orally administered chemotherapy treatment.3

MEDICAID EXPANSION

- As of June 2018, the state of North Carolina has not expanded Medicaid.4

BIOSIMILAR LEGISLATION

- In North Carolina, biosimilar substitution laws allow pharmacists to substitute a biological product for the prescribed reference biologic only if it is deemed to be an “interchangeable” biosimilar by the U.S. Food and Drug Administration (FDA) and meets other state law requirements. Currently, there are no interchangeable biological products.2

STATE HEALTH INSURANCE ASSISTANCE PROGRAMS (SHIPs)

PROGRAM NAME: The Seniors’ Health Insurance Information Program (SHIIP)
Phone: 1-855-408-1212
ABOUT:
- SHIIP counsels Medicare beneficiaries and caregivers about Medicare, Medicare supplemental insurance, Medicare Advantage, Medicare Part D, and long-term care insurance. The counselors offer free information regarding Medicare healthcare products. Through the North Carolina Senior Medicare Patrol Program (SMP), counselors also assist in recognizing and preventing Medicare billing errors and possible fraud and abuse.3

### North Dakota

#### LOW-INCOME SUBSIDY (LIS) PROGRAMS

- Medicare patients who have limited income and resources may qualify for “Extra Help” to pay for prescription drugs. The LIS programs in North Dakota include Aetna Medicare Rx Saver, Humana Preferred Rx Plan, SilverScript Choice, Symphonix Value Rx, and WellCare Classic.¹

#### STANDARD PRIOR AUTHORIZATION (PA) FORM

- As of June 2018, a standard PA Form has not been fully instituted in the state of North Dakota.²

#### TREATMENT ACCESS: GET ON IT & STAY ON IT

**CONTINUITY OF CARE/NON-MEDICAL SWITCHING:**
- North Dakota does not appear to have any continuity of care provisions or non-medical switching limitations that apply specifically to prescription drug coverage.

**STEP THERAPY:**
- The North Dakota Medicaid program must grant prior authorization requests under certain circumstances.

#### BIOSIMILAR LEGISLATION

- In North Dakota, biosimilar substitution laws allow pharmacists to substitute a biological product for the prescribed reference biologic only if it is deemed to be an “interchangeable” biosimilar by the U.S. Food and Drug Administration (FDA) and meets other state law requirements. Currently, there are no interchangeable biological products.²

#### ORAL PARITY LAW

- North Dakota passed legislation for health policies issued or renewed on or after August 1, 2015. This legislation requires payers in North Dakota that cover cancer chemotherapy treatments to provide coverage for oral chemotherapy at a cost-sharing rate for patients that does not exceed that of their IV treatments. Additionally, plans may not reclassify benefits or increase cost-sharing in order to be in compliance.³

#### MEDICAID EXPANSION

- Because North Dakota has expanded Medicaid, free or low-cost health coverage is available to people with incomes below a certain level regardless of disability, family status, financial resources, and other factors that are usually taken into account in Medicaid eligibility decisions.⁴ For more details on Medicaid expansion in North Dakota, click here.

---

### Ohio

#### LOW-INCOME SUBSIDY (LIS) PROGRAMS

- Medicare patients who have limited income and resources may qualify for “Extra Help” to pay for prescription drugs. The LIS programs in Ohio include [Aetna Medicare Rx Saver](https://www.aetna.com). [EnvisionRxPlus](https://www.envisionrxplus.com), [Humana Preferred Rx Plan](https://www.humana.com), [SilverScript Choice](https://www.silverscript.com), [Symphonix Value Rx](https://www.symphonixrx.com), and [WellCare Classic](https://www.wellcare.com).

#### STANDARD PRIOR AUTHORIZATION (PA) FORM

- Ohio has enacted legislation and/or implemented regulations requiring the use of uniform prior authorization forms but has not yet released uniform prior authorization forms.

#### TREATMENT ACCESS: GET ON IT & STAY ON IT

**CONTINUITY OF CARE/NON-MEDICAL SWITCHING:**
- Ohio law does not appear to include any specific continuity of care provisions or non-medical switching limitations for prescription drug benefits.

**STEP THERAPY:**
- Ohio does not appear to include limitations on step therapy for prescription drug coverage. Ohio does require insurers that restrict formularies to provide a process for enrollees to obtain non-formulary drugs at no additional cost-sharing where the provider documents medical necessity.

### ORAL PARITY LAW

- Ohio passed legislation for health policies issued or renewed on or after January 1, 2015. This law directs payers that provide coverage for cancer treatments to extend coverage for orally administered anti-cancer medication at a cost no less favorable to intravenously administered or injected cancer medications. Additionally, plans may not increase the out-of-pocket cost for IV chemotherapy to patients to achieve compliance.

### MEDICAID EXPANSION

- Because Ohio has expanded Medicaid, free or low-cost health coverage is available to people with incomes below a certain level regardless of disability, family status, financial resources, and other factors that are usually taken into account in Medicaid eligibility decisions. For more details on Medicaid expansion in Ohio, click here.

### BIOSIMILAR LEGISLATION

- In Ohio, biosimilar substitution laws allow pharmacists to substitute a biological product for the prescribed reference biologic only if it is deemed to be an “interchangeable” biosimilar by the U.S. Food and Drug Administration (FDA) and meets other state law requirements. Currently, there are no interchangeable biological products.

LOW-INCOME SUBSIDY (LIS) PROGRAMS

- Medicare patients who have limited income and resources may qualify for “Extra Help” to pay for prescription drugs. The LIS programs in Oklahoma include Aetna Medicare Rx Saver, Blue Cross MedicareRx Basic, Cigna-HealthSpring Rx Secure, Humana Preferred Rx Plan, SilverScript Choice, Symphonix Value Rx, and WellCare Classic.¹

STANDARD PRIOR AUTHORIZATION (PA) FORM

- As of June 2018, a standard PA Form has not been fully instituted in the state of Oklahoma.²

TREATMENT ACCESS: GET ON IT & STAY ON IT

- Oklahoma implemented oral parity for health policies issued or renewed on or after November 1, 2013. This law requires payers that provide coverage for cancer treatment to cover extended coverage for orally administered anti-cancer medication at a cost equal to intravenously administered or injected cancer medications. A plan is also in compliance with the law if they charge no more than $100 per prescription for the orally administered anti-cancer treatment. Additionally, plans may not increase the out-of-pocket cost to patients to achieve compliance.³

MEDICAID EXPANSION

- As of June 2018, the state of Oklahoma has not expanded Medicaid.⁴

BIOSIMILAR LEGISLATION

- As of June 2018, biosimilar legislation in the state of Oklahoma has not been instituted.²

ORAL PARITY LAW

- Oklahoma implemented oral parity for health policies issued or renewed on or after November 1, 2013. This law requires payers that provide coverage for cancer treatment to cover extended coverage for orally administered anti-cancer medication at a cost equal to intravenously administered or injected cancer medications. A plan is also in compliance with the law if they charge no more than $100 per prescription for the orally administered anti-cancer treatment. Additionally, plans may not increase the out-of-pocket cost to patients to achieve compliance.³

STATE HEALTH INSURANCE ASSISTANCE PROGRAMS (SHIPs)

PROGRAM NAME:
Senior Health Insurance Counseling Program (SHIP)

Phone: 1-800-763-2828

ABOUT:
- SHIP is a nonprofit organization helping to inform the public about Medicare and other senior health insurance issues. This division provides accurate and objective counseling, assistance, and advocacy relating to Medicare, Medicaid, Medicare supplemental insurance, Medicare Advantage, long-term care, and other related health coverage plans for Medicare beneficiaries, their representatives, or persons soon to be eligible for Medicare.⁵

LOW-INCOME SUBSIDY (LIS) PROGRAMS

- Medicare patients who have limited income and resources may qualify for “Extra Help” to pay for prescription drugs. The LIS programs in Pennsylvania include Aetna Medicare Rx Saver, Basic Blue Rx, Cigna-HealthSpring Rx Secure, EnvisionRxPlus, Express Scripts Medicare - Value, Humana Preferred Rx Plan, SilverScript Choice, Symphonix Value Rx, and WellCare Classic.

STANDARD PRIOR AUTHORIZATION (PA) FORM

- As of June 2018, a standard PA Form has not been fully instituted in the state of Pennsylvania.

TREATMENT ACCESS: GET ON IT & STAY ON IT

CONTINUITY OF CARE/NON-MEDICAL SWITCHING:
- Plans must provide at least 30 days notice of formulary changes to healthcare providers, except when the change is due to approval or withdrawal of approval by the FDA.

STEP THERAPY:
- Pennsylvania does not appear to have any laws or regulations that prohibit use of step therapy or fail-first protocols for enrollees with advanced, metastatic cancer.

BIOSIMILAR LEGISLATION

- In Pennsylvania, biosimilar substitution laws allow pharmacists to substitute a biological product for the prescribed reference biologic only if it is deemed to be an “interchangeable” biosimilar by the U.S. Food and Drug Administration (FDA) and meets other state law requirements. Currently, there are no interchangeable biological products.

ORAL PARITY LAW

- On January 1, 2016, an oral parity law was enacted to direct payers that provide coverage for cancer chemotherapy treatments to extend coverage for prescribed, orally administered anti-cancer medications at a cost no less favorable than the cost of intravenously administered or injected anti-cancer medications.

MEDICAID EXPANSION

- Because Pennsylvania has expanded Medicaid, free or low-cost health coverage is available to people with incomes below a certain level regardless of disability, family status, financial resources, and other factors that are usually taken into account in Medicaid eligibility decisions. For more details on Medicaid expansion in Pennsylvania, click here.

STATE HEALTH INSURANCE ASSISTANCE PROGRAMS (SHIPs)

PROGRAM NAME:
Apprise Health Insurance Counseling Program
Phone: 1-800-783-7067

ABOUT:
- Apprise Health Insurance Counseling Program is a free health insurance counseling program designed to help older Pennsylvanians with Medicare.
- Counselors are specially trained volunteers who can answer questions about Medicare and provide objective, easy-to-understand information about Medicare, supplemental insurance, Medicaid, and long-term care insurance. All services are free and confidential. Counseling events take place throughout the state.

STATE PHARMACEUTICAL ASSISTANCE PROGRAMS (SPAPs)

LOW-INCOME SUBSIDY (LIS) PROGRAMS

- Medicare patients who have limited income and resources may qualify for "Extra Help" to pay for prescription drugs. The LIS programs in Rhode Island include Aetna Medicare Rx Saver, EnvisionRxPlus, Express Scripts Medicare - Value, Humana Preferred Rx Plan, SilverScript Choice, Symphonix Value Rx, and WellCare Classic.¹

STANDARD PRIOR AUTHORIZATION (PA) FORM

- As of June 2018, a standard PA Form has not been fully instituted in the state of Rhode Island.²

TREATMENT ACCESS: GET ON IT & STAY ON IT

CONTINUITY OF CARE/NON-MEDICAL SWITCHING²:
- Rhode Island requires that certain insurers notify plan enrollees of an upcoming formulary change.

STEP THERAPY²:
- Rhode Island laws do not specifically address step therapy protocols, but they do provide that insurers must provide coverage for a non-formulary medication when the non-formulary medication meets the insurer’s medical-exception criteria for the coverage of that medication. Proposed legislation (S.B. 0862) would require that users of step therapy protocols implement clinical review criteria to establish the protocol, provide for a clear and convenient exceptions process, and expeditiously consider requests in certain circumstances.

ORAL PARITY LAW

- On July 15, 2013, Rhode Island oral parity law was enacted to require payers that provide coverage for cancer chemotherapy treatment to extend coverage for orally administered anti-cancer medication at a cost to patients no less favorable to intravenously administered or injected anti-cancer medications. Additionally, plans may not increase cost-sharing to achieve compliance.³

MEDICAID EXPANSION

- Because Rhode Island has expanded Medicaid, free or low-cost health coverage is available to people with incomes below a certain level regardless of disability, family status, financial resources, and other factors that are usually taken into account in Medicaid eligibility decisions.⁴ For more details on Medicaid expansion in Rhode Island, click here.

BIOSIMILAR LEGISLATION

- Pharmacists when dispensing a prescription for any biological product shall, unless requested otherwise by the individual presenting the prescription in writing, substitute such product with an interchangeable biological product in accordance with the provisions of the law. No substitution under this section shall be allowed if the prescribing physician orders the pharmacist to dispense as brand name necessary on the prescription form, or if the prescriber gives oral direction to that effect to the dispensing pharmacist. The pharmacist will make a biological product selection from approved interchangeable prescription biological products and shall pass the savings on to the ultimate consumer. When a biological product selection is made, the pharmacist shall inform the patient of the selection made and shall indicate the product dispensed on the written prescription or on the oral prescription, which has been reduced to writing.²

Eligible veterans may have options through the Veterans Choice Program. Click here for eligibility details: https://www.va.gov/OPA/CHOICEACT/
### LOW-INCOME SUBSIDY (LIS) PROGRAMS

- Medicare patients who have limited income and resources may qualify for “Extra Help” to pay for prescription drugs. The LIS programs in South Carolina include [Aetna Medicare Rx Saver](#), [EnvisionRxPlus](#), [SilverScript Choice](#), and [Symphonix Value Rx](#).

### STANDARD PRIOR AUTHORIZATION (PA) FORM

- As of June 2018, a standard PA Form has not been fully instituted in the state of South Carolina.2

### TREATMENT ACCESS: GET ON IT & STAY ON IT

#### CONTINUITY OF CARE/NON-MEDICAL SWITCHING:
- South Carolina does not appear to have any laws addressing non-medical switching or continuity of care for prescription drugs, but does require continuity of care when a physician leaves a network.

#### STEP THERAPY:
- South Carolina does not appear to have any laws or regulations that apply specifically to step therapy/fail-first requirements.

### ORAL PARITY LAW

- As of June 2018, the state of South Carolina has no legislation regarding orally administered chemotherapy treatment.3

### MEDICAID EXPANSION

- As of June 2018, the state of South Carolina has not expanded Medicaid.4

### BIOSIMILAR LEGISLATION

- As of June 20, 2017, legislation is pending in South Carolina that would allow a pharmacist to substitute a biosimilar for the prescribed reference biologic if: (1) the U.S. Food and Drug Administration (FDA) has determined that it is “interchangeable” with the prescribed biologic; (2) the biosimilar is less expensive than the prescribed biologic; (3) the prescribing provider has authorized substitution with an interchangeable biological product; and (4) the patient has consented to the switch. However, a Medicaid recipient whose prescription is reimbursed by the South Carolina Medicaid Program would be deemed to have consented to a less costly interchangeable biological product. The pharmacist would be required to notify the prescribing practitioner and the patient about the substitution within 5 days of the substitution and meet certain reporting requirements. Currently, there are no interchangeable biological products.2

### STATE HEALTH INSURANCE ASSISTANCE PROGRAMS (SHIPs)

#### PROGRAM NAME:
**Insurance Counseling Assistance and Referrals for Elders program (I-CARE)**

**Phone:** 1-800-868-9095, 1-803-734-9900

**ABOUT:**
- The State of South Carolina and the federal government have organized the State Health Insurance Program (SHIP), alternately known as the Insurance Counseling Assistance and Referrals for Elders program (I-CARE), to assist in decisions regarding Medicare choices. Counselors throughout the state can provide health insurance counseling for Medicare, Medicare supplemental resources, Medicare Savings Program, Medicare Advantage plans, and senior Medicare fraud programs.3

### LOW-INCOME SUBSIDY (LIS) PROGRAMS

- Medicare patients who have limited income and resources may qualify for “Extra Help” to pay for prescription drugs. The LIS programs in Tennessee include Aetna Medicare Rx Saver, Express Scripts Medicare - Value, Humana Preferred Rx Plan, SilverScript Choice, Symphonix Value Rx, and WellCare Classic.¹

### STANDARD PRIOR AUTHORIZATION (PA) FORM

- As of June 2018, a standard PA Form has not been fully instituted in the state of Tennessee.²

### TREATMENT ACCESS: GET ON IT & STAY ON IT

**CONTINUITY OF CARE/NON-MEDICAL SWITCHING:**

- Tennessee has a limited continuity of care provision for formulary exclusions, which allows enrollees to file a grievance when a health plan removes a prescription drug from a previously approved formulary. If the grievance is filed within a specified time frame, the enrollee may continue to receive the excluded drug until the plan processes the grievance.

**STEP THERAPY:**

- Tennessee does not appear to have any laws or regulations that apply specifically to step therapy/fail-first requirements.

### ORAL PARITY LAW

- As of June 2018, the state of Tennessee has no legislation regarding orally administered chemotherapy treatment.³

### MEDICAID EXPANSION

- As of June 2018, the state of Tennessee has not expanded Medicaid.⁴

### BIOSIMILAR LEGISLATION

- In Tennessee, biosimilar substitution laws allow pharmacists to substitute a biological product for the prescribed reference biologic only if it is deemed to be an “interchangeable” biosimilar by the U.S. Food and Drug Administration (FDA) and meets other state law requirements. Currently, there are no interchangeable biological products.²

### STATE PHARMACEUTICAL ASSISTANCE PROGRAMS (SPAPs)

**TENNESSEE DEPARTMENT OF HEALTH, HIV/STD PROGRAM**

- Phone: 1-615-741-7500

**ABOUT:**

- Tennessee SHIP is a statewide program that provides free, objective counseling and assistance to persons with questions or problems regarding Medicare and other related health insurance plans.
- SHIP operates through the state’s 9 Area Agencies on Aging & Disability (AAADs). These agencies offer a variety of services besides SHIP, all aimed at helping elderly people and/or those with disabilities to live better lives.⁶

LOW-INCOME SUBSIDY (LIS) PROGRAMS

- Medicare patients who have limited income and resources may qualify for “Extra Help” to pay for prescription drugs. The LIS programs in Texas include **Aetna Medicare Rx Saver**, **Blue Cross MedicareRx Basic**, **Cigna-HealthSpring Rx Secure**, **Humana Preferred Rx Plan**, **SilverScript Choice**, **Symphonix Value Rx**, and **WellCare Classic**.

STANDARD PRIOR AUTHORIZATION (PA) FORM

- Prescribers can submit a standard drug PA request form for prescription drug benefits. This form was implemented in Texas to help simplify and streamline the PA process for prescription drugs. The form is available at https://www.tdi.texas.gov/forms/ihifealth/nofr002.pdf.

TREATMENT ACCESS: GET ON IT & STAY ON IT

- Texas has a limited continuity of care provision that requires plans to cover “at the contracted benefit level” a prescription drug that has been removed from coverage for an enrollee until the enrollee’s plan renewal date. In addition, health plans must provide notice when they make modifications to drug coverage, including removing a drug from a formulary and adding a prior authorization requirement.

ORAL PARITY LAW

- On September 1, 2011, Texas enacted oral parity law that requires payers that provide coverage for cancer chemotherapy treatment to extend coverage for orally administered anti-cancer medication at a cost no less favorable to the cost of intravenously administered or injected cancer medications.

MEDICAID EXPANSION

- As of June 2018, the state of Texas has not expanded Medicaid.

BIOSIMILAR LEGISLATION

- In Texas, biosimilar substitution laws allow pharmacists to substitute a biological product for the prescribed reference biologic only if it is deemed to be an “interchangeable” biosimilar by the U.S. Food and Drug Administration (FDA) and meets other state law requirements. Currently, there are no interchangeable biological products.

STATE HEALTH INSURANCE ASSISTANCE PROGRAMS (SHIPs)

- **Health Information Counseling & Advocacy Program of Texas (HICAP)**
  - Phone: 1-800-252-9240
  - ABOUT:
    - HICAP maintains a statewide system of health insurance counseling for older and disabled Texans, and provides information about both public benefits and private health insurance. All HICAP programs in Texas are committed to working with seniors, particularly in benefits counseling. Benefits counselors provide information and assistance and act as advocates when needed.

STATE PHARMACEUTICAL ASSISTANCE PROGRAMS (SPAPs)

- **Texas HIV State Pharmacy Assistance Program (SPAP)**
  - Phone: 1-800-255-1090, ext. 3004

LOW-INCOME SUBSIDY (LIS) PROGRAMS

- Medicare patients who have limited income and resources may qualify for “Extra Help” to pay for prescription drugs. The LIS programs in Utah include Aetna Medicare Rx Saver, Cigna-HealthSpring Rx Secure, EnvisionRxPlus, Express Scripts Medicare - Value, Humana Preferred Rx Plan, SilverScript Choice, Symphonix Value Rx, and WellCare Classic.

STANDARD PRIOR AUTHORIZATION (PA) FORM

- As of June 2018, a standard PA Form has not been fully instituted in the state of Utah.

TREATMENT ACCESS: GET ON IT & STAY ON IT

CONTINUITY OF CARE/NON-MEDICAL SWITCHING:
- Utah law does not appear to have any continuity of care provisions or limitations on non-medical switching applicable to prescription drug coverage.

STEP THERAPY:
- Utah does not appear to have any laws or regulations that apply specifically to step therapy/fail-first requirements.

ORAL PARITY LAW

- Utah implemented oral parity law for health policies issued or renewed on or after October 1, 2013. This law requires payers to provide orally administered anti-cancer medications at a cost to the patient equal to those receiving intravenous or injected therapies. Additionally, plans may not increase the out-of-pocket cost for IV treatments to achieve compliance.

MEDICAID EXPANSION (NOT FULLY ADOPTED)

- As of May 2018, Utah has voted to expand Medicaid, but it is unclear whether it will be implemented.

BIOSIMILAR LEGISLATION

- In Utah, biosimilar substitution laws allow pharmacists to substitute a biological product for the prescribed reference biologic only if it is deemed to be an "interchangeable" biosimilar by the U.S. Food and Drug Administration (FDA) and meets other state law requirements. Currently, there are no interchangeable biological products.

STATE HEALTH INSURANCE ASSISTANCE PROGRAMS (SHIPs)

PROGRAM NAME:
Medicare/Medigap/Medicare Advantage
Phone: 1-800-541-7735

ABOUT:
- Utah provides online resources covering the various options in Medicare, Medigap, and Medicare Advantage plans that seniors can choose. Resources include publications from the Centers of Medicare & Medicaid Services (CMS) and state resources.

LOW-INCOME SUBSIDY (LIS) PROGRAMS

- Medicare patients who have limited income and resources may qualify for “Extra Help” to pay for prescription drugs. The LIS programs in Vermont include Aetna Medicare Rx Saver, EnvisionRxPlus, Express Scripts Medicare - Value, Humana Preferred Rx Plan, SilverScript Choice, Symphonix Value Rx, and WellCare Classic.¹

STANDARD PRIOR AUTHORIZATION (PA) FORM

- Prescribers can submit a standard drug PA request form for prescription drug benefits. This form was implemented in Vermont to help simplify and streamline the PA process for prescription drugs. The form is available at http://www.dfr.vermont.gov/insurance/health-insurance/vermonts-uniform-prior-authorization-form-medical-services.²

TREATMENT ACCESS: GET ON IT & STAY ON IT

- Vermont implemented legislation, effective April 1, 2010, requiring health insurers that provide coverage for cancer chemotherapy treatment to provide coverage for prescribed, orally administered anti-cancer medications on a financial basis no less favorable than intravenously administered or injected anti-cancer medications covered under the insured’s plan.³

BIOSIMILAR LEGISLATION

- In Vermont, biosimilar substitution laws allow pharmacists to substitute a biological product for the prescribed reference biologic only if it is deemed to be an “interchangeable” biosimilar by the U.S. Food and Drug Administration (FDA) and meets other state law requirements. Currently, there are no interchangeable biological products.²

MEDICAID EXPANSION

- Because Vermont has expanded Medicaid, free or low-cost health coverage is available to people with incomes below a certain level regardless of disability, family status, financial resources, and other factors that are usually taken into account in Medicaid eligibility decisions. For more details on Medicaid expansion in Vermont, click here.

LOW-INCOME SUBSIDY (LIS) PROGRAMS

• Medicare patients who have limited income and resources may qualify for “Extra Help” to pay for prescription drugs. The LIS programs in Virginia include Aetna Medicare Rx Saver, Humana Preferred Rx Plan, Magellan Rx Medicare Basic, SilverScript Choice, Symphonix Value Rx, and WellCare Classic.1

STANDARD PRIOR AUTHORIZATION (PA) FORM

• As of June 2018, a standard PA Form has not been fully instituted in the state of Virginia.2

TREATMENT ACCESS: GET ON IT & STAY ON IT

CONTINUITY OF CARE/NON-MEDICAL SWITCHING:

• Virginia requires plans to cover a medically necessary non-formulary drug for an enrollee who has been receiving the drug for at least six months prior to the formulary change, provided the prescribing physician determines that the formulary drug is an “inappropriate therapy” for the patient or that changing drug therapy “presents a significant health risk to the specific patient.” The law specifically exempts substituting the “generic equivalent drug,” which has been approved by the FDA, for a branded version of such drug. Thus, a biosimilar version of a reference biological would presumably be subject to this law.

STEP THERAPY:

• Virginia does not appear to have any laws or regulations that apply specifically to step therapy/fail-first requirements. Recently proposed S.B. 574 would require certain plans to grant step therapy requests under specified situations.

ORAL PARITY LAW

• Virginia implemented legislation, effective July 1, 2012, requiring group and individual health insurance plans, corporations providing group or individual insurance plans, and HMOs to cover oral chemotherapy drugs on the same terms as they cover cancer chemotherapy drugs that are administered intravenously or by injection. Specifically, the law requires that coverage must be consistently applied within the same plan.3

MEDICAID EXPANSION

• Effective January 1, 2019, free or low-cost health coverage is available to people with incomes below a certain level regardless of disability, family status, financial resources, and other factors that are usually taken into account in Medicaid eligibility decisions. For more details on Medicaid expansion in Virginia, click here.4

BIOSIMILAR LEGISLATION

• In Virginia, biosimilar substitution laws allow pharmacists to substitute a biological product for the prescribed reference biologic only if it is deemed to be an “interchangeable” biosimilar by the U.S. Food and Drug Administration (FDA) and meets other state law requirements. Currently, there are no interchangeable biological products.2

STATE HEALTH INSURANCE ASSISTANCE PROGRAMS (SHIPs)

PROGRAM NAME:

Virginia Insurance Counseling and Assistance Program (VICAP)

Phone: 1-800-552-3402

ABOUT:

• The Virginia Division for the Aging (VDA) assists patients with determining what type of insurance they need, how much coverage they may need, and understanding medical bills. Individual insurance counseling assistance is available through the VICAP. Counselors can help resolve claims or billing problems and assist with filing for benefits and sorting through complicated statements and notices.3

STATE PHARMACEUTICAL ASSISTANCE PROGRAMS (SPAPs)

Virginia AIDS Drug Assistance Program (ADAP)4, 7

Phone: 1-855-362-0658

ADDITIONAL PROGRAMS/RESOURCES

• National Foundations
• Advocacy Connector
• Congressional Members

Eligible veterans may have options through the Veterans Choice Program. Click here for eligibility details: https://www.va.gov/GPA/CHOICEACT/
• On January 1, 2012, an oral parity law was enacted to direct payers that provide coverage for cancer chemotherapy treatments to extend coverage for prescribed, orally administered anti-cancer medications at a cost no less favorable than the cost of intravenously administered or injected anti-cancer medications.

Because Washington has expanded Medicaid, free or low-cost health coverage is available to people with incomes below a certain level regardless of disability, family status, financial resources, and other factors that are usually taken into account in Medicaid eligibility decisions. For more details on Medicaid expansion in Washington, click here.

In Washington, biosimilar substitution laws allow pharmacists to substitute a biological product for the prescribed reference biologic only if it is deemed to be an “interchangeable” biosimilar by the U.S. Food and Drug Administration (FDA) and meets other state law requirements. Currently, there are no interchangeable biological products.

West Virginia

LOW-INCOME SUBSIDY (LIS) PROGRAMS

• Medicare patients who have limited income and resources may qualify for “Extra Help” to pay for prescription drugs. The LIS programs in West Virginia include Aetna Medicare Rx Saver, Basic Blue Rx, Cigna-HealthSpring Rx Secure, EnvisionRxPlus, Express Scripts Medicare - Value, Humana Preferred Rx Plan, SilverScript Choice, Symphonix Value Rx, and WellCare Classic.

STANDARD PRIOR AUTHORIZATION (PA) FORM

• As of June 2018, a standard PA Form has not been fully instituted in the state of West Virginia.

TREATMENT ACCESS: GET ON IT & STAY ON IT

CONTINUITY OF CARE/NON-MEDICAL SWITCHING:
• West Virginia does not appear to have any continuity of care provisions or limitations on non-medical switching applicable to prescription drug coverage.

STEP THERAPY:
• West Virginia requires a health benefit plan to grant a step therapy exception request under certain situations.

ORAL PARITY LAW

• Legislation has been put into effect for health policies issued or renewed on or after January 1, 2016, requiring payers providing coverage for cancer treatment to extend coverage for orally administered anti-cancer medication at a cost no less favorable to intravenously administered or injected anti-cancer medications.

MEDICAID EXPANSION

• Because West Virginia has expanded Medicaid, free or low-cost health coverage is available to people with incomes below a certain level regardless of disability, family status, financial resources, and other factors that are usually taken into account in Medicaid eligibility decisions. For more details on Medicaid expansion in West Virginia, click here.

BIOSIMILAR LEGISLATION

• Except as limited by the prescriber and unless instructed otherwise by the patient, a pharmacist who receives a prescription for a specific biological product shall select a less expensive interchangeable biological product unless in the exercise of his or her professional judgment the pharmacist believes that the less expensive drug is not suitable for the particular patient. The pharmacist shall provide notice to the patient or the patient’s designee regarding the selection of a less expensive interchangeable biological product.

STATE HEALTH INSURANCE ASSISTANCE PROGRAMS (SHIPs)

Wisconsin

To view a glossary of common healthcare terms, visit: [http://khn.org/glossary/](http://khn.org/glossary/)

LOW-INCOME SUBSIDY (LIS) PROGRAMS

- Medicare patients who have limited income and resources may qualify for “Extra Help” to pay for prescription drugs. The LIS programs in Wisconsin include Aetna Medicare Rx Saver, Cigna-HealthSpring Rx Secure, EnvisionRxPlus, Express Scripts Medicare – Value, Humana Preferred Rx Plan, SilverScript Choice, Symphonix Value Rx, and WellCare Classic.

STANDARD PRIOR AUTHORIZATION (PA) FORM

- As of June 2018, a standard PA Form has not been fully instituted in the state of Wisconsin.

TREATMENT ACCESS: GET ON IT & STAY ON IT

CONTINUITY OF CARE/NON-MEDICAL SWITCHING:

- Wisconsin does not appear to have any continuity of care provisions or limitations on non-medical switching applicable to prescription drug coverage.

STEP THERAPY:

- Wisconsin does not appear to have any provisions specifically relating to step therapy protocols, but it does require certain plans to provide a process to request an exception for a non-formulary drug.

ORAL PARITY LAW

- Wisconsin passed oral parity legislation for health policies issued or renewed on or after January 1, 2015, that requires payers to provide coverage for orally administered anti-cancer medication at a cost equal to intravenously administered or injected cancer medications. A plan is also in compliance with the law if they charge no more than $100 per prescription for the orally administered anti-cancer treatment. Additionally, plans may not increase the out-of-pocket cost to patients to achieve compliance.

MEDICAID EXPANSION (NOT FULLY ADOPTED)

- As of May 2018, Wisconsin has not expanded Medicaid. Wisconsin does cover adults up to 100% FPL in Medicaid.

BIOSIMILAR LEGISLATION

- A pharmacist shall dispense every prescription using either the statement regarding biological product substitution may appear with the specific biological product prescribed. No preprinted indication is made, the pharmacist shall dispense the prescription in electronic format the phrase “No substitutions” or words of similar meaning or the initials “N.S.”, that no substitution of the biological product prescribed or an interchangeable biological product prescribed is made under sub. If such indication is made, the pharmacist shall dispense the prescription with the specific biological product prescribed. No preprinted statement regarding biological product substitution may appear on the face of the prescription order.

STATE HEALTH INSURANCE ASSISTANCE PROGRAMS (SHIPs)

PROGRAM NAME: The Medigap Helpline
Phone: 1-800-242-1060
ABOUT:

- The Medigap Helpline assists in making insurance decisions. It is a state-wide, toll-free number provided by the Wisconsin Board on Aging and Long Term Care. Patients can call with questions about Medigap insurance, and counselors will help evaluate their Medicare supplemental insurance and clarify other related issues or complexities.

STANDARD PRIOR AUTHORIZATION (PA) FORM

- As of June 2018, a standard PA Form has not been fully instituted in the state of Wisconsin.

TREATMENT ACCESS: GET ON IT & STAY ON IT

CONTINUITY OF CARE/NON-MEDICAL SWITCHING:

- Wisconsin does not appear to have any continuity of care provisions or limitations on non-medical switching applicable to prescription drug coverage.

STEP THERAPY:

- Wisconsin does not appear to have any provisions specifically relating to step therapy protocols, but it does require certain plans to provide a process to request an exception for a non-formulary drug.

ORAL PARITY LAW

- Wisconsin passed oral parity legislation for health policies issued or renewed on or after January 1, 2015, that requires payers to provide coverage for orally administered anti-cancer medication at a cost equal to intravenously administered or injected cancer medications. A plan is also in compliance with the law if they charge no more than $100 per prescription for the orally administered anti-cancer treatment. Additionally, plans may not increase the out-of-pocket cost to patients to achieve compliance.

MEDICAID EXPANSION (NOT FULLY ADOPTED)

- As of May 2018, Wisconsin has not expanded Medicaid. Wisconsin does cover adults up to 100% FPL in Medicaid.

BIOSIMILAR LEGISLATION

- A pharmacist shall dispense every prescription using either the statement regarding biological product substitution may appear with the specific biological product prescribed. No preprinted indication is made, the pharmacist shall dispense the prescription in electronic format the phrase “No substitutions” or words of similar meaning or the initials “N.S.”, that no substitution of the biological product prescribed or an interchangeable biological product prescribed is made under sub. If such indication is made, the pharmacist shall dispense the prescription with the specific biological product prescribed. No preprinted statement regarding biological product substitution may appear on the face of the prescription order.

LOW-INCOME SUBSIDY (LIS) PROGRAMS

• Medicare patients who have limited income and resources may qualify for “Extra Help” to pay for prescription drugs. The LIS programs in Wyoming include Aetna Medicare Rx Saver, Humana Preferred Rx Plan, SilverScript Choice, Symphonix Value Rx, and WellCare Classic.1

STANDARD PRIOR AUTHORIZATION (PA) FORM

• As of June 2018, a standard PA Form has not been fully instituted in the state of Wyoming.2

TREATMENT ACCESS: GET ON IT & STAY ON IT

CONTINUITY OF CARE/NON-MEDICAL SWITCHING:
• Wyoming does not appear to have any continuity of care provisions or non-medical switching limitations that apply specifically to prescription drug coverage.

STEP THERAPY:
• Wyoming does not appear to have any laws or regulations that apply specifically to step therapy/fail-first requirements.

ORAL PARITY LAW

• Wyoming passed legislation for health policies issued or renewed on or after July 1, 2015. This legislation requires that health insurance plans in Wyoming that cover cancer chemotherapy treatments cannot require higher cost-sharing for their coverage for oral chemotherapy than they do for intravenous or injected chemotherapy. Additionally, plans cannot reclassify benefits or increase their cost-sharing for intravenous drugs in order to comply.3

MEDICAID EXPANSION

• As of June 2018, the state of Wyoming has not expanded Medicaid.4

BIOSIMILAR LEGISLATION

• Except as limited by law or when the practitioner has clearly indicated substitution is not permitted, a pharmacist may substitute a drug product with the same generic name in the identical strength, quantity, dose and dosage form as the prescribed drug, provided the substituted drug meets all requirements specified by the law. When a practitioner orally communicates a prescription and prohibits a generic substitution, the pharmacist shall make reasonable efforts to obtain a written prescription from the practitioner with the phrase “brand medically necessary” written on the face of the prescription in his own handwriting.2

SHIPPING ASSISTANCE PROGRAMS (SHIPs)

PROGRAM NAME:
Wyoming State Health Insurance Information Program (WSHIIP)
Phone: 1-800-856-4398

ABOUT:
• WSHIIP is a federally mandated program, set up to help seniors and others on Medicare understand their rights and answer their questions. There are over 80 volunteers in most of the Wyoming counties who will counsel beneficiaries and help solve problems confidentiality and free of cost. Trained counselors promote consumer understanding of Medicare, Medicaid, Medicare supplemental insurance, and long-term care insurance.5

Eligible veterans may have options through the Veterans Choice Program. Click here for eligibility details: https://www.va.gov/OPA/CHOICEACT/
HOW TO APPLY IF YOUR STATE HASN’T EXPANDED
Each state has coverage options that could work for your patients, particularly if they have children, are pregnant, or have a disability. In all states, patients can apply for Medicaid coverage in 1 of 2 ways:
1. Directly to the state Medicaid agency, using the “select your state” drop-down menu at https://www.healthcare.gov/medicaid-chip/eligibility/ to locate the contact information, or
2. By filling out an online application at https://www.healthcare.gov/medicaid-chip/medicaid-expansion-and-you/, located under the option to “Apply for Medicaid, even if your state hasn’t expanded coverage.”

STATES WITH EXPANDED MEDICAID
Blue-colored states have either expanded Medicaid or are pending expanded Medicaid.

KEY FACTS
- The Affordable Care Act provides states with additional federal funding to expand their Medicaid programs to cover adults under 65 years of age with incomes up to 133% of the Federal Poverty Level (FPL), which is effectively 138% of the FPL due to calculation method. Children (18 years of age and under) are eligible up to that income level or higher in all states.
- In states with expanded Medicaid, free or low-cost health coverage is available to people with incomes below a certain level regardless of other factors usually taken into account in Medicaid eligibility decisions.

SUPPORT IN STATES THAT HAVE EXPANDED
- Patients can qualify based on income alone in states that have expanded Medicaid. Patients earning below 133% of the federal poverty level (FPL) will likely qualify for coverage. (In 2018, the FPL is $12,140 a year as a single person or $25,100 for a family of four.) However, a few states use a different income limit. Click here to learn more.
- Patients earning more than these amounts can buy a private insurance plan in the Marketplace, and/or may be eligible for tax credits that lower the cost of monthly premiums and out-of-pocket costs.

SUPPORT IN STATES THAT HAVEN’T EXPANDED
- Patients earning more than 100% of the FPL will be able to buy a private health insurance plan in the Marketplace and may qualify for premium tax credits and other savings based on household size and income.
- Patients earning less than 100% of the FPL won’t qualify for lower costs for private insurance based on income, but may be eligible for Medicaid, even without the expansion, based on the state’s existing rules.

References:
State Pharmaceutical Assistance Programs (SPAPs)

Don’t give up – there may be assistance options for patients without insurance who are not eligible for government programs.

KEY FACTS
• SPAPs offer prescription drug assistance for state residents who lack insurance coverage for medicines, or who were not eligible for other government programs. Low-income, elderly patients, and patients with disabilities who do not qualify for Medicaid are often assisted by SPAPs.1
• SPAPs utilize state funds to pay for a portion of insurance costs, usually for a defined population that meets certain enrollment criteria.1

ADDITIONAL INFORMATION
• Some states offer programs that can help people with certain illnesses pay for their prescription drugs. HIV/AIDS Drug Assistance Programs (ADAPs) and programs for people suffering from end-stage renal disease (ESRD) are programs in this category.1
• States that offer SPAPs often coordinate their SPAPs with Medicare Part D drug benefits. Check with the individual state program to see how it works with Part D.
• If a drug is covered by both your patient’s SPAP and Part D plan, the patient’s payment plus the SPAP payment for the drug will count towards the out-of-pocket maximum your patient is required to reach before his or her Medicare drug costs go down.1

CHALLENGES
• An increasing number of states use discounts or bulk purchasing approaches that do not draw upon state funds for the drug purchases.
• Since the passage of the federal Affordable Care Act (ACA), state legislatures have been less active on SPAP issues.2

STATES WITH SPAP/ADAP PROGRAMS
All 50 states currently have SPAPs and/or ADAPs in place.1,3

References:
EFFECT OF LIS ON PATIENT COSTS (continued)

- Patients who qualify for full LIS are entitled to a premium subsidy equal to 100% of the plan's premium for basic prescription drug coverage, or the regional low-income premium subsidy amount, also called the “benchmark premium.”

Partial LIS

- A patient may qualify for a partial subsidy if he or she has an annual income below 150% of the FPL and his or her resources do not exceed the limitations specified by the SSA for the plan year.

- Partial subsidy-eligible patients may be eligible for a premium subsidy ranging from 25% to 100% of the premium subsidy amount as specified above.

APPLYING FOR “EXTRA HELP”

There is no cost to apply for this program. Patients should start the process early to ensure that the benefit is in place by January 1 of the next Part D plan year. If a patient is having trouble paying for his or her medications, he or she should be aware of the following application options:

- To apply online, visit https://secure.ssa.gov/i1020/start
- To apply by telephone, call 1-800-772-1213 (TTY users should call 1-800-325-0778)

LIS PLANS PER STATE

LIS plans are active in all U.S. states. To see plans that are active in your state, select the orange U.S. map icon on the top of this page, and then select your state within the map page.

References:
State Health Insurance Assistance Programs (SHIPs)

Free information. Free counseling. Learn about an outstanding resource for providers and patients with Medicare or Medicare-related health insurance questions.

KEY FACTS

• State Health Insurance Assistance Program (SHIPs) provide free, in-depth, one-on-one insurance counseling and assistance to Medicare beneficiaries, their families, friends, and caregivers. These are grant-funded projects of the federal U.S. Department of Health & Human Services (HHS), and the U.S. Administration for Community Living (ACL).¹

• SHIP programs provide free information and counseling for providers and patients with questions or concerns about Medicare or Medicare-related health insurance. SHIP programs can also help beneficiaries save on Medicare costs.³

STATES WITH SHIP

SHIP programs operate in all 50 states, and also in the District of Columbia, Guam, Puerto Rico, and the U.S. Virgin Islands. To access the SHIP program description and contact information, use the “Contact Your State SHIP” search tool at the top of the following webpage: https://shipnpr.acl.gov/ (formerly known as shiptalk.gov).³

References:

Standard Prior Authorization (PA) Form

**States with a Standard PA Form**
The states colored in blue are the only states that have a standard PA Form. However, many states have standard PA Form legislation pending.¹

**Key Facts**
- A standardized, or “uniform,” PA Form may be required in certain states to submit PA requests to a health plan for review, along with the necessary clinical documentation. These standard forms can be used across payers and health benefit managers (this includes health insurers, prepaid managed care organizations, third-party administrators, entities that establish self-insurance plans, healthcare clearinghouses, and other entities that perform claims processing and other administrative functions).
- A standardized PA Form assists providers by streamlining the data submission process for selected services that require PA.
- Standardized PA Forms may help medical practices assist patients in receiving their necessary medical and healthcare services in a timely manner and with less administrative complexity.

**Limitations**
- Standardized PA Forms are only applicable to prescription drug benefits; they are not applicable to medical services or procedures.
- Standardized PA Forms are typically not applicable to self-funded employer-sponsored health plans, Medicare Part D plans, and Medicaid fee-for-service plans.

**References:**
Foundations & Other Nonprofit Resources

No co-pay assistance? There are still options that may be available. Learn about nonprofit or other options available to assist patients with prescription drug costs.

KEY FACTS
• In recent years, healthcare choices have expanded significantly, many due to advances in pharmaceutical treatments. Although prescription drug expense represents only a small portion of total U.S. healthcare spending, the out-of-pocket costs for individual patients can be significant. These are some of the resources that are available to assist patients with their prescription drug costs.

FOUNDATIONS & FUNDS

The Assistance Fund, Inc. provides eligible underinsured individuals with financial assistance to cover all or part of the individuals’ out-of-pocket cost for the supported medications. Patients must meet financial criteria and be diagnosed with a program-related illness.

5323 Millenia Lakes Boulevard, Suite 200
Orlando, FL 32839
Phone: 1-855-845-3663
Fax: 1-866-254-9411
Website: www.theassistancefund.org

CancerCare Co-Payment Assistance Foundation is a nonprofit organization that helps people being treated for cancer afford co-payments for chemotherapy and targeted treatment drugs. Covered diagnoses may vary. Patients must be insured. Financial and clinical eligibility criteria apply.

275 Seventh Avenue
New York, NY 10001
Phone: 1-866-55-COPAY (1-866-552-6729)
Fax: 1-212-601-9750
E-mail: info@cancercare.org
Website: www.cancercare.org

Good Days from CDF provides co-pay assistance to underinsured patients who require the use of expensive, specialty therapeutics. CDF maintains separate funds for each of the disease states covered and all disease/drug options may not always be available. Each disease and the medications covered are defined using proprietary guidelines.

6900 North Dallas Parkway, Suite 200
Plano, TX 75024
Phone: 1-877-YOUR-CDF
E-mail: admin@cdfund.org
Website: www.mygooddays.org

HealthWell Foundation is a co-payment assistance foundation that provides financial assistance to eligible individuals to cover coinsurance, co-payments, and deductibles for certain medications and therapies. Patients must be insured to participate.

P.O. Box 4133
Gaithersburg, MD 20878

Oral Parity Laws

Looking to limit patient costs influencing chemotherapy decisions? See how states are helping to equalize patient costs between oral and intravenous chemotherapy.

**KEY FACTS**

- Oral parity laws require payers to equalize patient cost-sharing between oral chemotherapy and intravenous (IV) chemotherapy under a given health plan.¹

- Patients are often required to pay more under their insurance plans for oral chemotherapy than for physician-administered treatment.

- Oral parity laws are designed to address this discrepancy, enabling patients and physicians to choose the most effective treatment option without regard to potential cost.

- Health plans typically cover IV chemotherapy as a medical benefit² with patients charged for treatment as part of an outpatient visit, usually requiring a flat office co-payment that covers both the drug and the administration.³ Average costs for the patient are $20-$40 per visit.⁴

- Health plans typically cover oral chemotherapy under their pharmacy benefit. A health plan’s pharmacy benefit will usually require a patient to pay a percentage of the drug’s cost, rather than a flat co-payment.

**LIMITATIONS**

- State oral parity laws only govern health insurance plans that are subject to state oversight. This includes private individual, small group, and large group plans. Employer self-insured plans are generally regulated by the federal Employment Retirement Income Security Act (ERISA) and are not subject to state oversight. Medicare Part D is a public, federal program and is not subject to state insurance regulatory requirements. Note: Eligibility criteria varies by state.

- Oral parity laws do not require health plans to offer chemotherapy services. Rather, they ensure that when chemotherapy services are offered, cost-sharing is comparable regardless of how they are administered.⁵

**STATES WITH ORAL PARITY LAWS**

All states colored in blue have either passed oral parity laws or are pending legislation.⁶

KEY FACTS

- The Advocacy Connector website provides an interactive questionnaire that, when completed, identifies resources targeted to oncology patient needs. Available resources include financial, legal, and insurance assistance, among others.

- The Advocacy Connector makes it as easy as possible for you to find and contact the advocacy groups most relevant to your patient’s needs. All you need to do is enter information about your patient’s illness and the types of resources the patient is looking for, and the site will generate a list of groups and resources.

**Biosimilar Legislation**

**Learn more about how states are planning to regulate substitution of biologic drugs.**

**KEY FACTS**

- States regulate the use of brand-name and generic prescription drugs through statutes and rules about substitution of generics for brand-name prescriptions. However, regulating biologic drug substitution raises more complex issues. Biologic drugs are much more difficult to replicate than small molecule drugs. While identical “generic” versions of biologics are currently virtually impossible to produce, manufacturers may obtain U.S. Food and Drug Administration (FDA) approval for biological products that are “highly similar” (but not identical) to brand-name biological products. In addition, the FDA can deem a biosimilar product “interchangeable” with a brand-name product, which is an even more stringent standard.

- Traditional statutes regulating “generic drugs” could possibly be misapplied to new biosimilar products that are not identical.

- There are initiatives underway to amend older state laws to address the medical and chemical characteristics of “biologics,” as well as any future generic-style “follow-on biologics” or “biosimilars.”

- Since 2013, at least 48 states have considered legislation to establish standards for substitution of a “biosimilar” prescription product.

- As of December 31, 2017, fewer than 10 drugs have gained full approval by the FDA as biosimilars in the United States. No products have been deemed interchangeable.

**COMMON FEATURES OF STATE LEGISLATION 2013–2017**

- Any biosimilar product under consideration for substitution must first be approved as “interchangeable” by the FDA.

- The prescriber would still be able to request the innovator product by stating “dispense as written,” “brand medically necessary,” or other similar language.

- The prescriber must be notified of any allowable substitution made at a pharmacy.

- The individual patient must be notified that a substitute or switch has been made. In some cases, state law would require patient consent before any such switch is made.

- In some states, the pharmacist and physician must retain records of substituted biologic medications.

- Some state legislation provides immunity for pharmacists who make a biologic substitution in compliance with state law.

- Some state legislation requires the pharmacist to explain the cost or price of the biologic and the interchangeable biosimilar.

- Some state legislation requires that the state must maintain a public or web-based list of permissible interchangeable products.

**CURRENT STATE LAWS AND LEGISLATION**

All states colored in light blue below have enacted legislation for biologics and biosimilar substitution.

**References:**
**KEY FACTS**

- Patients are more likely to qualify for continuity of care when undergoing medical services for major illnesses or procedures. Patients with non-acute medical conditions they would like treated (such as treatment for an ear infection) may not qualify for continuity of care.

- To determine if medical services for a patient's particular illness or procedure qualify for continuity of care, it is best for the patient to check with his or her healthcare professional and health plan.

- Non-medical switching is a change in a patient's prescribed medicine that is driven by factors other than the clinical safety and effectiveness of the product, such as a health plan's removal of the drug from its formulary, or when a patient changes health plans and is subject to new formulary rules.

- "Continuity of care" protections may help to ensure that established patients can remain on their prescribed drug regimen when medically appropriate to do so.¹

---

**STATES WITH CONTINUITY OF CARE/NON-MEDICAL SWITCHING**

All states colored in blue have instituted continuity of care and/or non-medical switching protections.¹

---

**STATES WITH STEP THERAPY**

All states colored in blue have instituted step therapy protections.³
